

India's Next RETAIL REVOLUTION

ANNUAL REPORT 2013-14

Vakrangee Limited

Vakrangee Marts

India's Next Retail Revolution

EVEN AFTER SIX DECADES OF INDEPENDENCE, ~42% OF INDIA'S POPULATION IS STILL UNBANKED. COMPLETE FINANCIAL INCLUSION IN INDIA DEMANDS AN ENABLING ENVIRONMENT WHERE FINANCIAL SERVICES ARE ADORNED WITH UNFLINCHING RELIABILITY AND BETTER PROXIMITY; AND WHERE COST-EFFECTIVE SERVICES ARE PACKAGED AND DELIVERED AT AN AFFORDABLE PRICE TO THE CONSUMERS.

A large part of India is still living under the shadow of financial duress – mainly due to the absence of household savings. Through the multi-channel delivery of our Vakrangee Marts, our objective is to financially empower India's under-served, gainfully serve the under-privileged and overcome the socio-economic inequalities existing in our society.

At Vakrangee, we strive to create a robust financial platform to inculcate the savings formation habit and improve financial literacy. Our financial inclusion initiatives are aimed towards unleashing India's vast untapped potential and being one of the key enablers in broadening and deepening of financial services till the bottom of the pyramid.

We wish to begin our next revolution of growth with banks outsourcing the process of reaching out through the "Business Correspondents" (BC) model. Our game-changing "Entrepreneur Model" for setting up franchisee-based Vakrangee Marts benefits not just the rural populace. Through the model, we wish to touch the lives of these Entrepreneurs (our franchisees) and their families, resulting in a strong "percolating down effect" on the society.

We call this **the Vakrangee Effect.**

ANNUAL REPORT 2013-14

NOTE ON FORWARD LOOKING STATEMENTS

In this Annual Review we have disclosed forward-looking information to enable investors to comprehend our prospects and take informed investment decisions. This review and other statements – written and oral – that we periodically make contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipate', 'estimate', 'expects', 'projects', 'intends', 'plans', 'believes', and words of similar substance in connection with any discussion of future performance.

We cannot guarantee that these forward-looking statements will be realized, although we believe we have been prudent in assumptions. The achievement of results is subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialize, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Readers should bear this in mind. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future events or otherwise.

VAKRANGEE MARTS.
INDIA'S NEXT RETAIL REVOLUTION

Our Vision

Vakrangee aims to be the most trusted consumer service point for urban and rural India, by making solutions even more simple & sustainable; offering products & services that are even more reliable & affordable; and imparting customer service that is even more friendly.

Our Mission

Vakrangee intends to become India's No.1 retailer by offering innovative ideas and proven modern technologies for facilitating universal financial & social inclusion.

About Us

Building the World's largest Technology-driven Product & Services delivery platform

We are a technology-driven company, focussing on creating India's largest network of last-mile retail points-of-sale. Our aim is to potentially enable every Indian to seamlessly benefit from financial inclusion, Government programmes and from a wider access to basic goods and services. We leverage our vast network of retail access points to deliver real-time BFSI services, Government to Citizen Services (G2C) & Business to Consumer Services (B2C) to the unserved rural, semi-urban and urban markets.

Our endeavour is to connect India's citizens with a modern ecosystem. We also aim to bridge the financial inclusion gap between the developed urban India and under-developed rural India by serving a 700+ million people market through our Vakrangee Marts.

Being the largest single systems integrator for key government projects, we enable the Central and State Governments to administer and deliver G2C services to each citizen – more affordably, reliably and efficiently than ever before.

Our Pedigree

- India's focussed e-Governance player with about two decades of experience
- Strong expertise from data digitisation to technology management
- Strong track record of delivering time-bound mission critical projects
- Efficient back-end for assimilating and processing data related to G2C and B2C services
- Empanelled in T3F4 (highest category) for the UIDAI Aadhaar Cards project
- Participation in Mission Mode Projects – MCA 21, RSBY, Passport Seva Kendra, UIDAI
- One of the leading systems integrator for key government projects
- CMMI maturity level III organisation – ISO 27001, ISO:IEC 20000 Certified

Our Genesis & Evolution

WE HAVE TRANSFORMED OURSELVES

FROM BEING A SUB-CONTRACTOR AND IT-ENABLER FOR E-GOVERNANCE PROJECTS TO A PRIME BIDDER IN E-GOVERNANCE PROJECTS AND FURTHER TO A FULLY-INTEGRATED RETAIL HOUSE OFFERING BFSI, G2C AND B2C SERVICES.

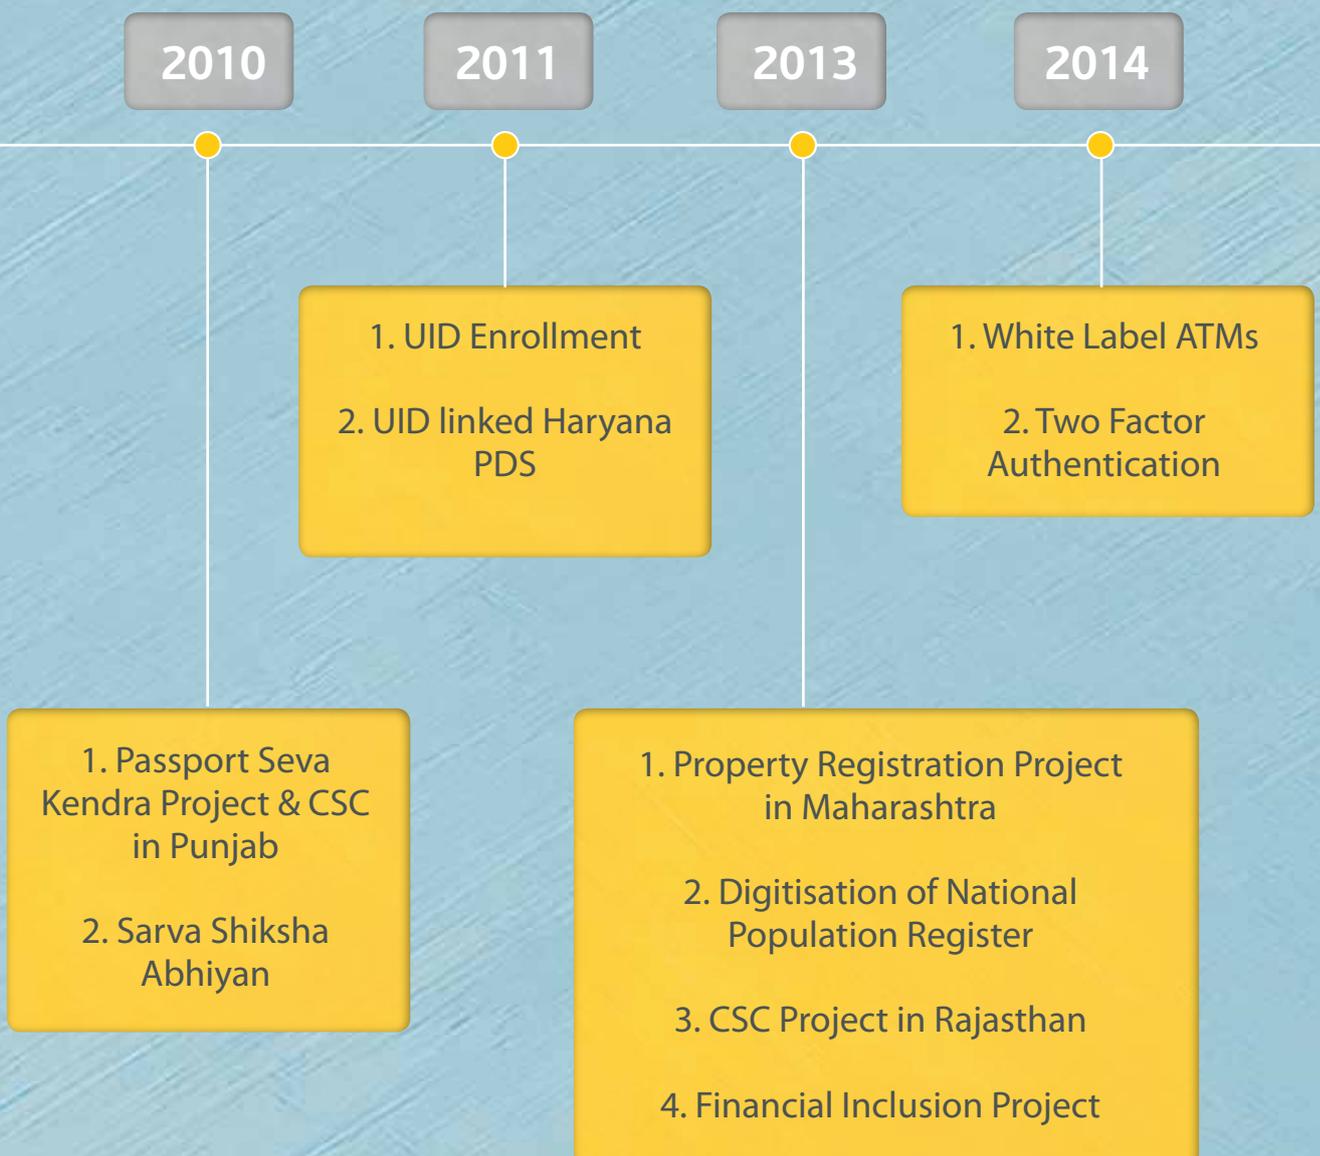

We have evolved into a standalone retail chain offering a strong bouquet of services across the Government, BFSI and consumer domains. We have a proven track record and an unparalleled execution capability in delivering time-bound mission critical projects with a large footprint across several geographies.

Our vast network financially empowers a large section of the society, which was so far excluded from the

mainstream activities of an emerging economy in the categories of consumption, savings and investment.

Under our highly evolved retail model, we provide technology-driven real time connectivity at the Gram Panchayat level through a variety of products and services. We offer a portfolio of banking and BFSI services and have a strong distribution channel to deliver G2C and B2C services across segments.

The Vakrangee Effect

Our vast network financially empowers a large section of the society that, till now, were completely excluded from the mainstream activities of an emerging economy: namely consumption, savings and investment. This increased participation will in turn support further industrialisation, more agriculture

and a wider market for goods and services. With the potential financial inclusion of a large section of society responsible for more than half of India's GDP, the Indian economy can be further enlarged and energised.

WE CALL THIS "THE VAKRANGEE EFFECT".

OUR COMPETITIVE ADVANTAGES

01

Strong technology expertise

02

Reach till Gram Panchayat level

03

Proven track record

04

Unparalleled execution capabilities

05

Preferred partner for banks

Our Brand Promise

No matter how remote, excluded or poor they might be, we promise to give every under-served Indian their rightful access to basic modern banking, within walking distance from their homes.

We will continue this endeavor until we have included the last financially excluded person in our country.

Along with this, we also promise to bring closer to them affordable and quality products & services that improve their essential living standards.

Our Brand Principles

Trust

THE GLUE THAT BINDS ALL OUR STAKEHOLDERS – GOVERNMENT, BANKS, BUSINESSES AND OUR FRANCHISEES

Perseverance

THE ATTITUDE WE HAVE TO ACCOMPLISH THE UNPRECEDENTED FEAT OF CREATING THE WORLD'S LARGEST RETAIL NETWORK, EVEN IN THE MOST REMOTEST AND INHOSPITABLE AREAS WITHOUT ELECTRICITY AND CONNECTIVITY

Unyielding Rigor

THE WAY WE TRAIN OUR PEOPLE AND SET HIGH STANDARDS OF QUALITY IN OUR SYSTEMS AND PROCESSES – THE BACKBONE OF OUR SUCCESS. WE CAN TAKE ORDINARY INDIVIDUALS AND TRAIN THEM WITH SKILL-SETS THAT HELP THEM YIELD REMARKABLE RESULTS

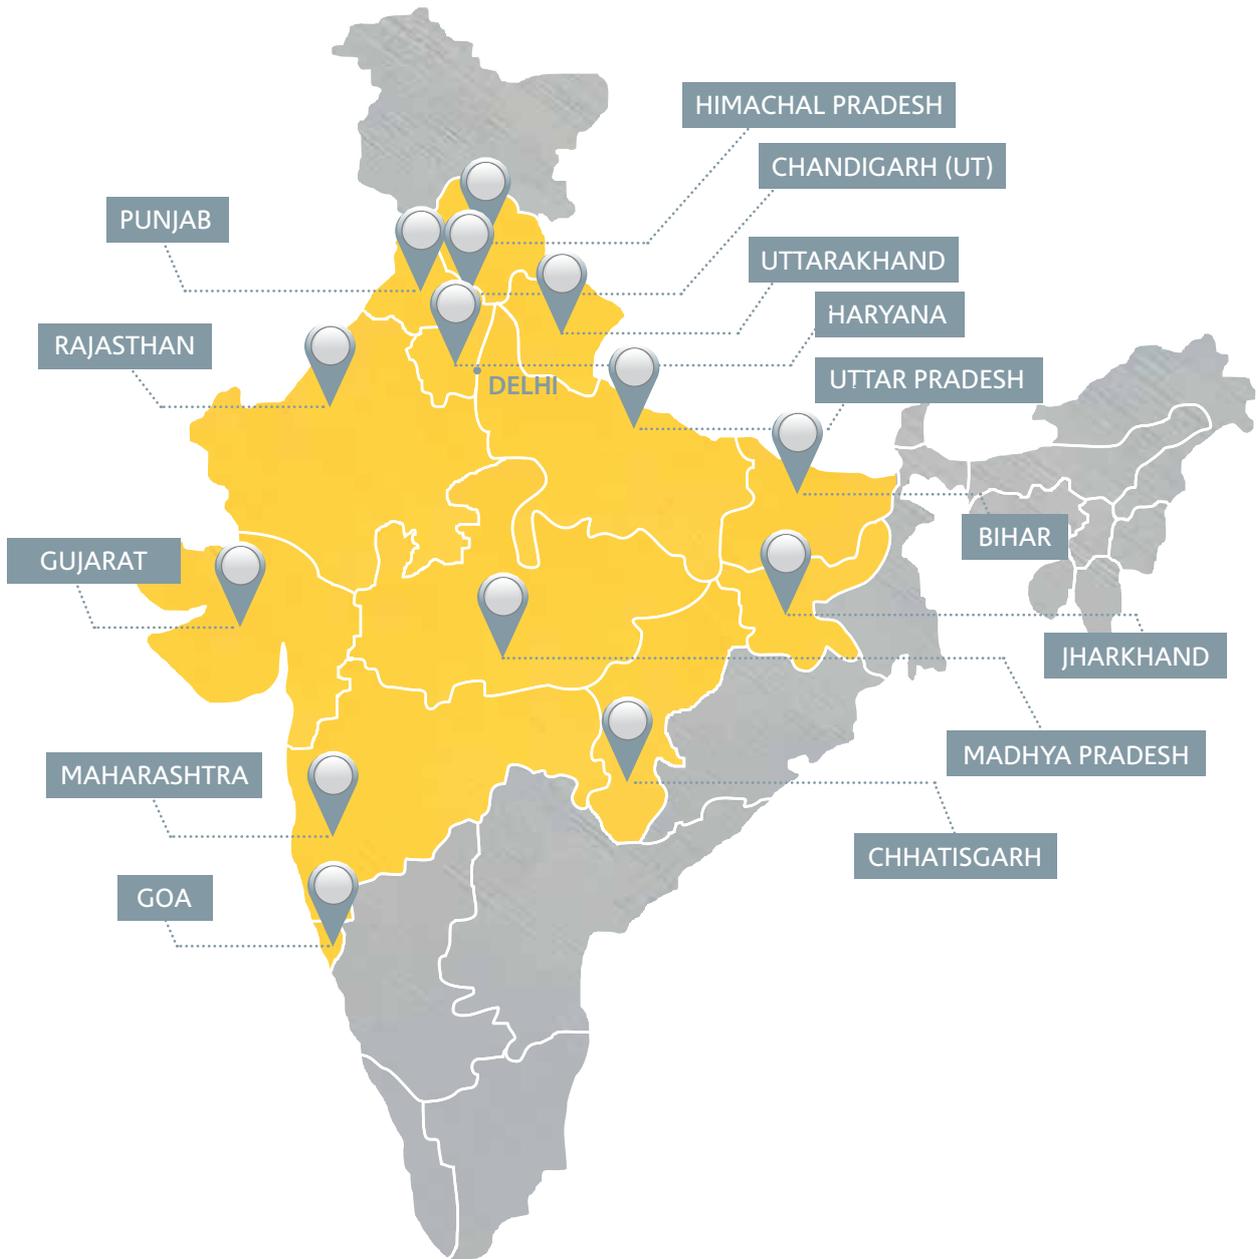

Entrepreneurial

AN ENTREPRENEURIAL SPIRIT IN OUR APPROACH TO BUSINESS – BOTH IN OUR EMPLOYEES AND OUR FRANCHISEES – OUR KEY BUSINESS PARTNERS

Prudent

OUR BASIC APPROACH TO SCALABILITY, SECURITY, CONFIDENTIALITY, PLANNING, RISK MANAGEMENT AND VALUE CREATION

Our Pan India Presence

An Insight into our Operations - Vakrangee Marts

Vakrangee won tenders for setting up and running upto 18,265 Common Business Correspondent outlets of public sector banks at the Gram Panchayat level for the states of Maharashtra, Rajasthan and Delhi. This was done to bridge the financial inclusion gap, where rural India does not have access to the commercial banking system enjoyed by urban India. The banks, subsequently, through various communications have allotted additional BC outlets to Vakrangee in northern and western states in India, wherein it intends to set up and manage upto 50,000 branches including around 15,000 branches in urban and semi-urban areas and the balance in Panchayat in rural areas.

We have been enhancing the profitability of these outlets by selling life insurance policies of Life Insurance Corporation of India (LIC) and non-life insurance products from The New India Assurance Company Limited (NIA), after taking corporate agency licenses from them. Vakrangee has also been selling various G2C and B2C services at these outlets.

BFSI Services

WE ARE A RETAIL HOUSE OFFERING BANKING & FINANCIAL SERVICES TO INDIA'S UNBANKED POPULATION AND THE LAST-MILE LINK CONNECTING INDIA'S URBAN AND RURAL CITIZENS WITH ITS MODERN ECOSYSTEM.

Our BFSI Offerings

- Banking
- Direct benefit transfer
- Insurance (Life and Non-life)

Banking Services

We provide real-time banking transactions at the grass-root level in the states of Maharashtra, Rajasthan and Delhi through Vakrangee Marts. Some of these are: creation of bank accounts; cash deposit/cash withdrawal/cash transfer; fixed deposits/recurring deposits; facilitation of credit to borrowers; and sale of third-party insurance products.

Direct Benefit Transfer

Through Direct Benefit Transfer scheme, all social security payments will be made through the banking network using Aadhaar-based platform as a unique identifier of beneficiaries. We facilitate delivery of social welfare benefits and transfer of subsidies to the beneficiaries through direct credit to their bank accounts, thereby eliminating the middleman.

Pension Transactions

Through this initiative, we promote security of income to India's pension subscribers. Our services enable pension subscribers to access pension funds from their Aadhaar-linked bank accounts using our robust network of Vakrangee Marts.

Insurance

Through our corporate agency tie-ups with LIC and NIA, we offer comprehensive life insurance and non-life insurance plans at our Vakrangee Marts.

B2C Services

WE HAVE GAINED AN UNPARALLELED EXPERIENCE IN SETTING UP A STRONG BACK-END FOR PROCESSING BUSINESS-TO-CONSUMER SERVICES IN SECTORS SUCH AS TELECOM, DTH (SATELLITE TELEVISION) AND EDUCATION. THROUGH OUR DEFINITE APPROACH IN THE B2C SEGMENT, WE AIM TO REVAMP THE CONSUMER LANDSCAPE, PLACE THE CUSTOMER AT THE CENTRE AND DELIVER A UNIQUE EXPERIENCE THAT MEETS HIS EXPECTATIONS.

We are empanelled to provide end-to-end e-Commerce solutions aiming to connect India's citizens with a modern ecosystem. As financial inclusion has become more of a policy imperative, we aim at providing a bouquet of financial products & services to empower the masses. Our customers gain access to an array of products and services at the click of a button.

Through our B2C services, our objective is to improve India's access to financial services. This will be achieved by bringing the unbanked and under-banked population under the organised financial services framework using Vakrangee Marts. With this, we are working towards facilitating access to India's masses to financial services by implementing our innovative and customer-focus initiatives.

Telecom

We are the service providers of a wide range of services in the telecommunications space, adding value to our B2C customers in more ways than one. We offer pre-paid and post-paid cards, tariffs and plans, charge and calling cards, broadband connections and other value-added services offered by telecom providers.

Direct to Home (DTH)

We have partnered with leading DTH providers of home entertainment, enabling them to increase their subscriber base through Vakrangee Marts. Our service delivery includes end-to-end solutions in the DTH segment including recharge coupons, subscription cards, new set-top box connections, and various other customer services.

Education

We started delivering education related services at our Vakrangee Marts by taking the distribution agency of text books in Maharashtra.

G2C Services

OUR SPEEDY DELIVERY OF G2C SERVICES IS AIMED AT REVAMPING THE CONSUMER LANDSCAPE AND ENABLING THE GOVERNMENT SERVE ITS CITIZENS BETTER. WE PROVIDE END-TO-END G2C SOLUTIONS TO CITIZENS THROUGH INTEGRATION OF OUR FRONT-END SERVICES WITH THE GOVERNMENT SYSTEMS.

We are a Service Centre Agency (SCA) under the CSC scheme of Government of India targeting to offer an extensive spectrum of G2C Services through our Vakrangee Marts.

Our portfolio of G2C segment includes services such as collection of utility bills, electoral services, Government recruitment application processing, grievance management and issuance of certificates.

Collection Services

We offer bill collection services for payment of electricity, telephone and mobiles (Post-paid).

Recruitment Application Processing

We provide the facility of processing applications for recruitment of workforce for Government-related services (Police, Teacher, Anganwadi Workers and others). The system installed at our retail branch network helps applicants identify job openings, create their own profile, submit their application and resumes and also provide reference checks.

Issuance of Certificates

We strive to serve India's citizens by providing the facility of online registration of important certificates such as those for birth, death and marriage, as well as their issuance to citizens.

Grievance Management Services

We act as a Grievance Lodging, Monitoring and Management System for the citizens of India. The system enables the citizens to issue a formal grievance on any particular or specific issue to the Government directly or through the local agencies set up by the Government.

An Insight into our Operations - e-Governance

WITH OVER 20 YEARS OF DOMAIN EXPERTISE AND OUR UNPARALLELED CAPABILITIES IN DELIVERING LARGE-SCALE AND COMPLEX-IN-NATURE E-GOVERNANCE PROJECTS, WE HANDLE MARQUEE PROJECTS RANGING THE ENTIRE SPECTRUM OF THE GOVERNMENT'S NATIONAL E-GOVERNANCE PLAN. WE ENABLE SPEEDY DELIVERY OF E-GOVERNANCE SERVICES WITH BACK-END IT AND ON-GROUND SUPPORT.

Our established track record in delivering time-bound 'mission critical' Government projects enables providing a range of services across data digitisation to technology management. We have proven skills and robust expertise in providing back-end support and systems integration in this segment. Our reach is vast extending beyond the Gram Panchayat level. Some key e-Governance projects we handle are PDS, UIDAI, NPR, SSA, CSC, FI and IGRS, among others. These projects are aimed towards improving the overall processes and public administration services under the e-Governance Plan.

Aadhaar Card

We are India's first-largest enrollment agency empanelled with the Unique Identification Authority of India (UIDAI) under T3F4 category, permitting pan-India enrollment of Aadhaar Cards, the 12-digit individual identification number issued by the Government of India.

Print and Data Management Services and Election related projects

We offer print management and data management services to Election Commission related projects and to private corporates in India. Some of our major projects in this area include work for the Office of Chief Electoral Officer for various states. We have also been aggregating and updating electoral data for Election Commission projects since the nineties.

Public Distribution System

We assist the Government in distribution of subsidised food and non-food items to the poor sections of the society in Haryana and making the distribution system more transparent, efficient, effective and accountable.

Inspector General of Registration & Stamps (IGRS)

The project aims to simplify the registration process, identifying its market value and appropriation, delivering time-bound services, ensuring centralised record keeping and increasing the overall efficiency.

New Initiatives

OUR VISION IS TO PROVIDE AFFORDABLE FINANCIAL SERVICES TO INDIAN HOUSEHOLDS THROUGH A STREAM OF STRATEGIC PROJECTS. THROUGH OUR PROJECT ON SETTING UP WHITE LABEL ATMS, WE AIM TO TAKE BANKING TO THE MASSES BY PROVIDING OUR CUSTOMERS EASY ACCESS TO CASH, WITHOUT HAVING TO WORRY ABOUT TRAVELLING LONG DISTANCES TO REACH THEIR OWN BANK ATM.

The basic objective of our services is to drive the rising demand for high-cost financial services among Indian households. Through these key projects, we wish to promote household savings and convert our current spending into savings and wealth creation. To enable this, we wish to work with the vast and geographically well-positioned retail infrastructure network of banks. Our Strategic Projects are aimed towards leveraging the emerging technology.

White Label ATMs

The Reserve Bank of India (RBI) has licensed us to set up and manage a minimum of 15,000 White Label ATMs across India within three years. We are required to implement this roll out at the rate of 5,000 ATMs a year (beginning January 23, 2014) and maintain a Rural-to-Urban ratio of 2:1, i.e., for every White Label ATM set up in Tier I or Tier II centres, we will need to establish two White Label ATMs in Tier III to Tier VI centres (with a minimum of 10% of ATMs in Tier III to Tier VI centres to be opened in Tier V and Tier VI centres). We will earn revenues from participating banks who will pay us a transaction fee for every transaction (financial and non-financial transactions) conducted through our White Label ATMs.

We intend to establish White Label ATMs near or within our Vakrangee Marts to increase revenues and cost synergies. We also intend to make our ATMs biometric-enabled to enable people to access and conduct ATM transactions using their fingerprints in addition to bank cards. We believe that there is a growing market for ATM services in India given the extent of completed enrollments in the UIDAI project across India, which will result in more people having access to biometric-enabled ATMs than was previously possible using ATM cards. A portion of the proceeds from the offerings are intended to be deployed in implementing our White Label ATM roll out plan across India.

Message by the Chairman of the Board

DEAR SHAREHOLDERS,

Purposeful direction and focussed commitment best describe FY2014 at Vakrangee Limited. During the year, we demonstrated the right strategy, culture and geographical footprint to deliver consistent and sustained value for our shareholders. It is our steadfast commitment to India's communities that kept us moving into the future. Over the years, we have moved up the value chain – from being a sub-contracted IT enabler in e-governance projects into a prime bidder focussed on mission mode projects as per the e-Governance plan of India and our evolution into an organised **"Rurban Retail House"** offering banking, insurance, G2C & B2C services at more than 6,000 delivery points under "Vakrangee Marts".

Year in Brief

Our responsibility towards the society has been a core component of our strategy during the year under review. As shared with you earlier, we signed a contracts with Public Sector Banks in the previous year to set up and manage "BC Outlets" for 5+2 years as "Common Business Correspondents" for the states of Maharashtra, Rajasthan and Delhi. Subsequently, these banks have been permitting us to set up more BC outlets in other states. We now intend to complete ~50,000 Vakrangee Marts in 15 states by March 2017, out of which 15,000 will be in urban and semi-urban areas and the remaining 35,000 in rural areas. These BC Outlets offer paperless, real-time, inter-operable Banking to customers and present a strong platform for savings formation in India.

Our Front-end Delivery Point

Besides Banking, Vakrangee Marts act as front-end delivery points for value-added services in insurance, G2C and B2C portfolio at the Gram Panchayat level. Our bouquet of services gives us first-mover advantage in the urban and rural space and ensures that we are a "one-stop multi-retail outlet" for

TEAMWORK IS THE ABILITY TO WORK TOGETHER TOWARDS A COMMON VISION – THE ABILITY TO DIRECT INDIVIDUAL ACCOMPLISHMENTS TOWARDS ORGANISATIONAL OBJECTIVES. IT IS THE FUEL THAT ALLOWS COMMON PEOPLE TO ATTAIN UNCOMMON RESULTS.

- *Andrew Carnegie*

consumers with the highest level of efficiency and effectiveness. Our deep understanding on consumer behaviour, due to last 20 years of working at the grass-root level in the e-Governance space, enables us to maximise customer experience and be the “last mile link” connecting the under-served citizens with India’s modern ecosystem. Our key objective has been to develop a platform that can enable Government, private and social sector organisations to align their social and commercial goals for the benefit of India’s population. This will be enabled in the remotest corners of India through a combination of IT and non-IT based services, giving us a definite competitive edge.

WLAs – a Growth Driver

The Reserve Bank of India (RBI) has granted us license to set up and run a minimum of 15,000 White Label ATMs (WLAs) over three years across India. These ATMs will have all the functionalities of a bank-run ATM dispenser, providing services to customers of all banks. Another key feature is that all our ATMs are adjoining to Vakrangee Marts in the Urban and Semi-Urban areas, offering more value-added services in terms of Banking, Insurance, G2C and B2C services to optimise cost and enhance profitability. Also, by adding the authentication mode of “Biometric Transaction” at these ATMs, we will be able to magnify the ATM market size from the number of “ATM Card Holders” to the number of “Aadhaar Card Holders”. Hence, the WLA business is a perfect strategic fit for our current business model of Vakrangee Marts.

Government’s Push towards Financial Inclusion

Our key driver for growth has been the Indian Government’s massive push towards financial inclusion through “Pradhan Mantri Jan Dhan Yojana”. Its objective is to bring every Indian into

the banking net, including the poorest of the poor households, by ensuring at least two bank accounts per household (at least one should be of the lady of the house). The scheme aims to provide bank accounts to 15 crore individuals in Rural and Urban India, along with accidental insurance cover of ₹ 1 lakh. These accounts shall be linked with the Aadhaar number of these account-holders and will become the single point of contact for receipt of all direct benefit transfers (DBT) from Central/State Government/Local Bodies.

Making India Digitally Empowered

Digital India is a new comprehensive e-Governance programme to transform India into a digitally empowered society and knowledge economy. It is an ‘Umbrella Mission’ for various citizen centric ministries/ departments to offer services on demand to rural citizens at the click of the mouse, setting up digital infrastructure at each nook and corner of Rural India.

We are one of the leading e-governance players functioning as a systems integrator and an end-to-end service provider and have been a part of various mission-mode projects for over the past two decades. With footprint in most parts of the country, we have the “first mover advantage” to leverage this huge opportunity from the ₹ 1.1 trillion “Digital India” mission of the Central Government.

Aadhaar – Our Pride

We are empanelled in the highest category of T3F4 permitting pan-India enrollment activity. We have emerged as the largest enrollment agency with generation of more than 42 million Aadhaar directly under the Unique Identification Authority of India (UIDAI) project. These numbers are linked to the residents’ demographic and biometric information. Our Company has benefitted greatly with the

NO MATTER HOW REMOTE, EXCLUDED OR POOR A PERSON MIGHT BE, WE HOPE TO GIVE EVERY INDIAN THE ACCESS TO BASIC MODERN BANKING WITHIN WALKING DISTANCE. WE REMAIN TARGETED TO BRING AFFORDABLE AND QUALITY PRODUCTS AND SERVICES TO INDIA'S UNDER-SERVED POPULACE.

Government's fast-tracking of the project. Further, UIDAI an increased budget of more than ₹ 2,000 crore for Aadhaar project in the current year's Union Budget of FY2014-15 gives further fillip to our growth in the business.

Financial Scorecard

Despite a still-difficult macro environment, your company delivered solid results. On a consolidated basis, revenues including other income were ₹ 19,580.63 million, compared to ₹ 15,523.62 million in FY2013. The EBITDA was ₹ 5,407.60 million as compared to ₹ 3,867.12 million in the previous fiscal year, whereas the Profit After Tax amounted to ₹ 1,750.42 million vis-à-vis ₹ 1,043.28 million earlier. The Total Income, EBITDA and PAT grew at a CAGR of 30.05%, 57.12% and 53.77%, respectively, over the last three years. Our ROCE for FY2014 stands at 28.30%. The "asset light" business model we follow entails operating our business on a franchisee basis in rural India, requiring minimum initial capex and incremental working capital requirement. This is expected to translate into higher return ratios and reduced debt levels, going forward.

Human Strengths

Thanks to our human talent and dedicated pool of employees, we remain motivated to perform well across all our business verticals. Our strong and experienced workforce is capable of driving end-to-end implementation of key projects, enabling us to achieve our goals across the urban, semi-urban and rural populace. Our scale and nature of business requires our human capital to have a hands-on approach and be discerning of the ground realities in a tough environment. And we thank our employees for an exemplary performance across segments.

Unleashing our Full Potential

Our business has high scalability with efficient Capex management through a combination of "owned" and "franchisee" model. Affiliation with our B2C partners and PSU banks and a sustainable local demand

is likely to give considerable traction to our retail operations, moving ahead. We are unleashing the full potential of our scale. A key to sustained growth within the Company will be proper execution of our “mission critical” projects. Over the years, we laid the groundwork and developed strong execution capabilities and a nationwide footprint right uptill the grass-root level. We feel we are extremely well-positioned to grow – by category and by trend.

We have embarked on our next phase of evolution – from being a project solutions provider to a platform provider earning stable annuity income. In a conducive environment under new Government, we hope to do our utmost to systematically and prudently continue our profitable growth trajectory. Our strong growth agenda devised for the next three years will enable us to consistently deliver healthy shareholder value.

Going Forward

Going ahead, we continue to remain targeted to fulfil our vision of bringing affordable and quality products and services to India’s population and improving their living standards. Going by our brand promise, no matter how remote, excluded or poor a person might be, we hope to give every Indian an access to basic modern banking within his walking distance.

We take this opportunity to thank our ex-Board Member Mr. Anil Patodia for guiding us through the years. His participation has been critical to our continued growth and development. We also take this opportunity to thank Mr. Kunnel Prem, who represented LIC on our Board and has recently resigned and moved from LIC to another organization. We are in the process of inducting the new director nominated by LIC onto our Board.

I wish to conclude by sincerely thanking our colleagues on the Board for their valuable guidance, our team for their enthusiastic and dedicated work, our shareholders for their continued trust, our customers for giving us the opportunity to serve

and grow, our vendors for being an extension of our organization, our bankers for their support, and last but not the least, our Government and its various ministries/departments whose far-sightedness has inculcated an opportunity for metamorphic changes in governance.

Yours Sincerely,

Dinesh Nandwana
Chairman & Managing Director

Board of Directors

Dinesh Nandwana

Chairman and
Managing Director

Mr. Dinesh Nandwana is one of the main promoters of Vakrangee, a Chartered Accountant by profession. He is the navigator who drove Vakrangee from being a modest consultancy company to a well-renowned and prominent e-Governance Company. His vast experience is backed by astute and dynamic leadership qualities. Mentoring the core management team to enable it to deliver the best-in-class e-governance and IT & IT-enabled services has been his forte over the years. His vision to take the Company to a new orbit helped it achieve stringent targets and claim the position of one of the best e-Governance players in the market.

53.77%
3-Year CAGR in PAT

Vakrangee recorded 26.13% YoY increase in its total income in FY2014, driven by strong traction across Vakrangee Marts, steady execution of several ongoing e-Governance projects and boost from national/state level election related business. EBITDA increased 39.84% with an EBITDA margin of 27.62% and PAT increased 67.78% with a PAT margin of 8.94%. The Company has been on a strong growth path over the last three years with its revenues, EBITDA and PAT having grown at CAGR of 30.05%, 57.12% and 53.77%, respectively.

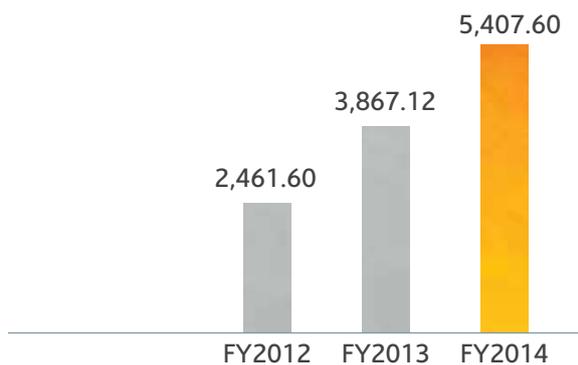

Total Income (₹ in Mn)

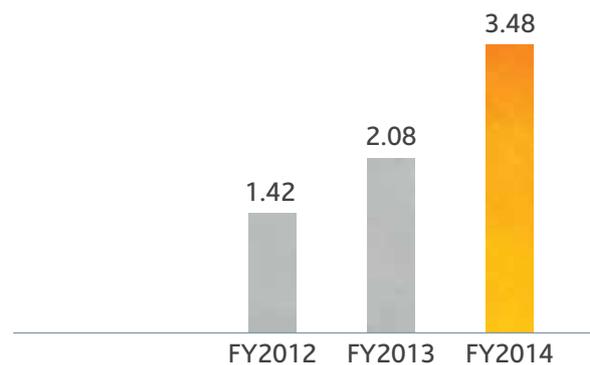

PAT (₹ in Mn)

EBITDA (₹ in Mn)

EPS (₹)

The Year in Brief

01

Vakrangee Marts:

- Signed agreements with 31 PSU Banks including RRBs (Regional Rural Banks) of PSU Banks
- Entered into B2C alliances across categories with LIC, New India Assurance and other telecom and DTH operators
- 3,853 Vakrangee Marts currently operational as on 31st March 2014

02

Election Commission:

- A great year in terms of national level Election as well as some major State Elections

03

Public Distribution System:

- Completed the pilot project
- Further roll out plan of the project will be prepared by the client in due course

04

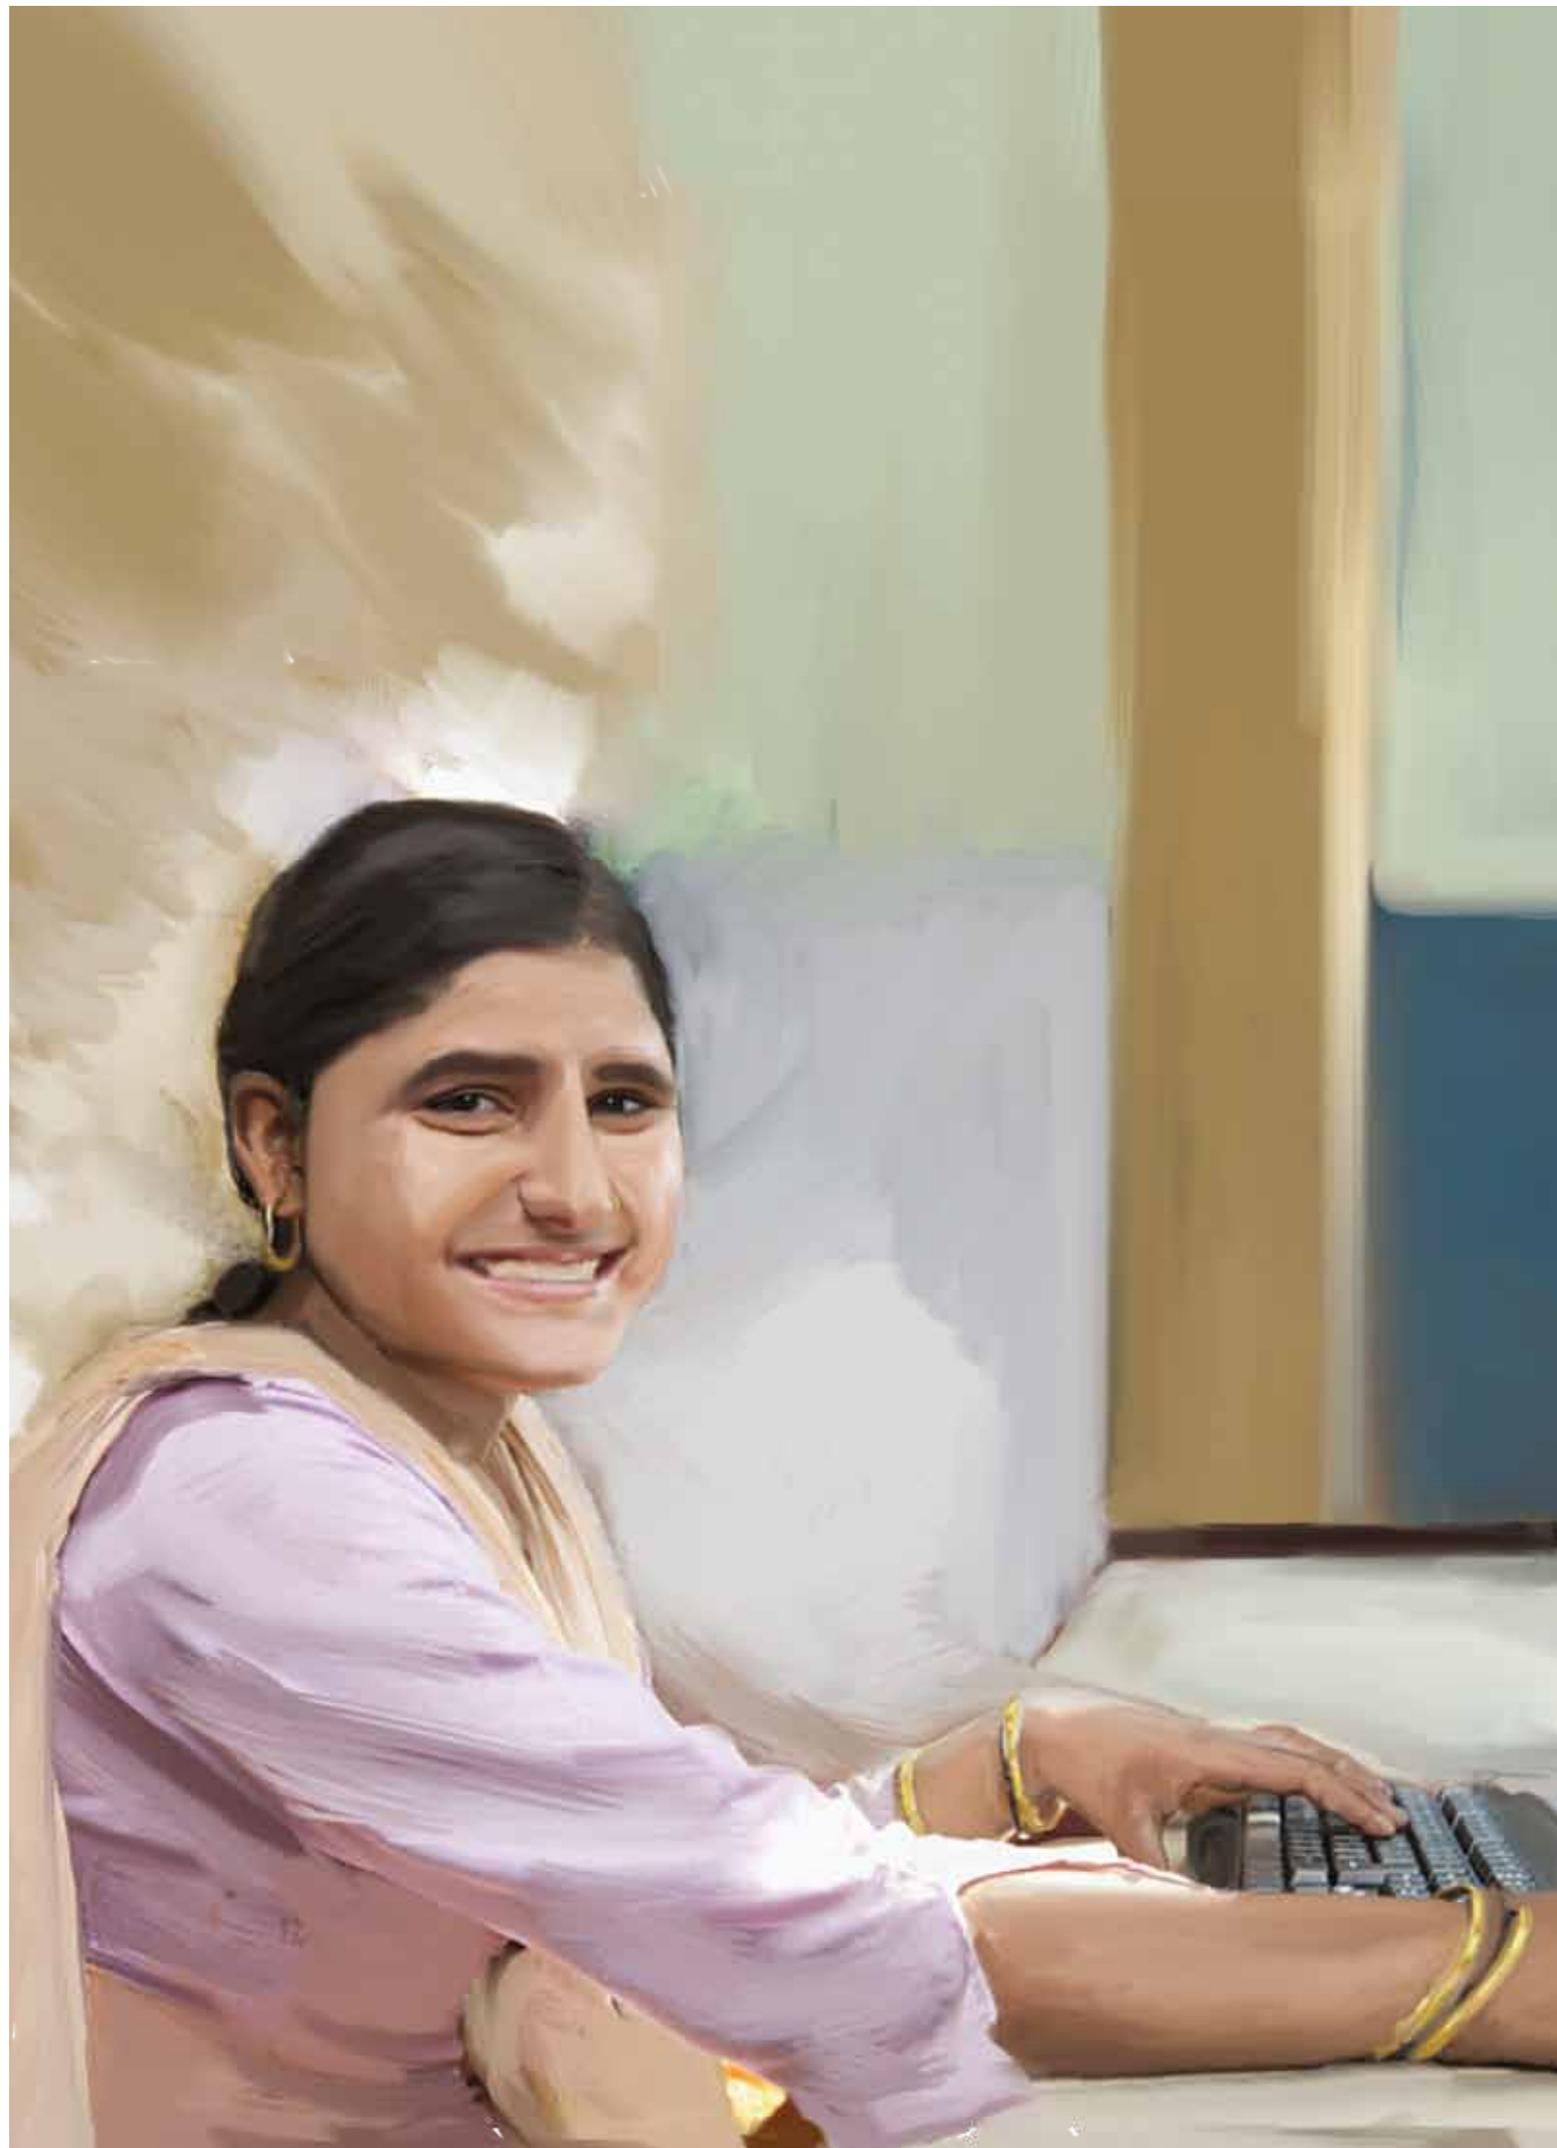

Aadhaar Project:

- Enrolled 42 million residents under UID
- Set-up ~4,000 enrollment centers across India, capturing demographic and biometric data of residents

05

White Label ATMs:

- Received the licence to set up 15,000 White Label ATMs in urban, semi-urban and rural areas

01

DRIVING SUSTAINABLE AND EQUITABLE GROWTH THROUGH FINANCIAL INCLUSION

We have established a strong track record in delivering time-bound mission critical projects such as Aadhaar Cards and electoral roll data. We have a large footprint across geographies. We are also the largest systems integrator for key Government projects.

01

DRIVING SUSTAINABLE AND EQUITABLE GROWTH THROUGH FINANCIAL INCLUSION

We are a part of India's financial ecosystem. We well understand consumer behaviour and offer end-to-end solutions to India's under-served population through our retail network of Vakrangee Marts. Our key competitive advantage is a vast bouquet of products and services we will deliver at Vakrangee Marts. These may be in sectors as diversified as automobiles, agri-inputs and equipment and white goods.

Through our entrepreneur model under Vakrangee Marts, we empower not only the under-served population excluded from the mainstream activities of an emerging economy, but the benefits also percolate down to families of these entrepreneurs. This in turn will support further industrialisation and provide a wider market for goods and services. With potential financial inclusion of a society's large section, the Indian economy will be further enlarged and energised. We call this "The Vakrangee Effect".

Our Technology Edge

We enjoy a prolific edge in connecting citizens with India's modern ecosystem by providing them with technology-driven real time connectivity till the Gram Panchayat level. We have created a back-end for assimilating and processing data related to citizens and G2C transactions and delivering Mission Mode Projects at the grass root level.

Preferred Partner for Banks

Our Brick & Mortar branches, referred to as Vakrangee Marts, enable real-time transactions and offer a strong platform for savings formation in India. These savings aid banks in widening their CASA deposit base in the regions, resulting in availability of low-cost funds. Banks also benefit through our cost-effective last-mile delivery of Direct Benefit Transfer scheme.

Banks leverage our platform to service the customers, besides offering services and products to the rural rich. They gain the potential to offer farm loans, car loans, cross selling of bundled services such as insurance and medical policies. Another specific advantage accrued by banks is that of using our platform to outsource operations such as pension disbursements, migrant worker remittances and

low-ticket accounts to urban and semi-urban bank branches. This way, they can improve their productivity and focus more on expanding the lending business.

The Vakrangee Edge

- Strong technology expertise
- Exclusive banking services
- Strong bouquet of G2C services
- Reach till Gram Panchayat level
- Large footprint across geographies
- Unparalleled execution capability
- Track record to deliver time-bound mission-critical projects

DRIVING SUSTAINABLE AND EQUITABLE GROWTH THROUGH FINANCIAL INCLUSION

OUR CURRENT & PAST PROJECTS

Project: Aadhaar

Our Aim:

Enrollment of residents for issuance of Unique Identification Number to be used for delivery of all Government benefit schemes, which will be linked to his demographic and biometric information.

Our Achievement:

We are the leading enrollment agency empanelled with UIDAI on a pan-India basis under the highest category of T3F4. We have clocked highest UID enrollment of 42 million residents directly.

Project: Computerisation of Electoral Data

Our Aim:

Enrollment of eligible population into electoral rolls, enabling them to participate in the election process and governance.

Our Achievement:

We have completed collection of electoral roll data of people residing in 38,450 Gram Panchayats (village self-governments) in the State of Uttar Pradesh in Hindi and Urdu languages.

Project: E-Governance Philippines

Our Aim:

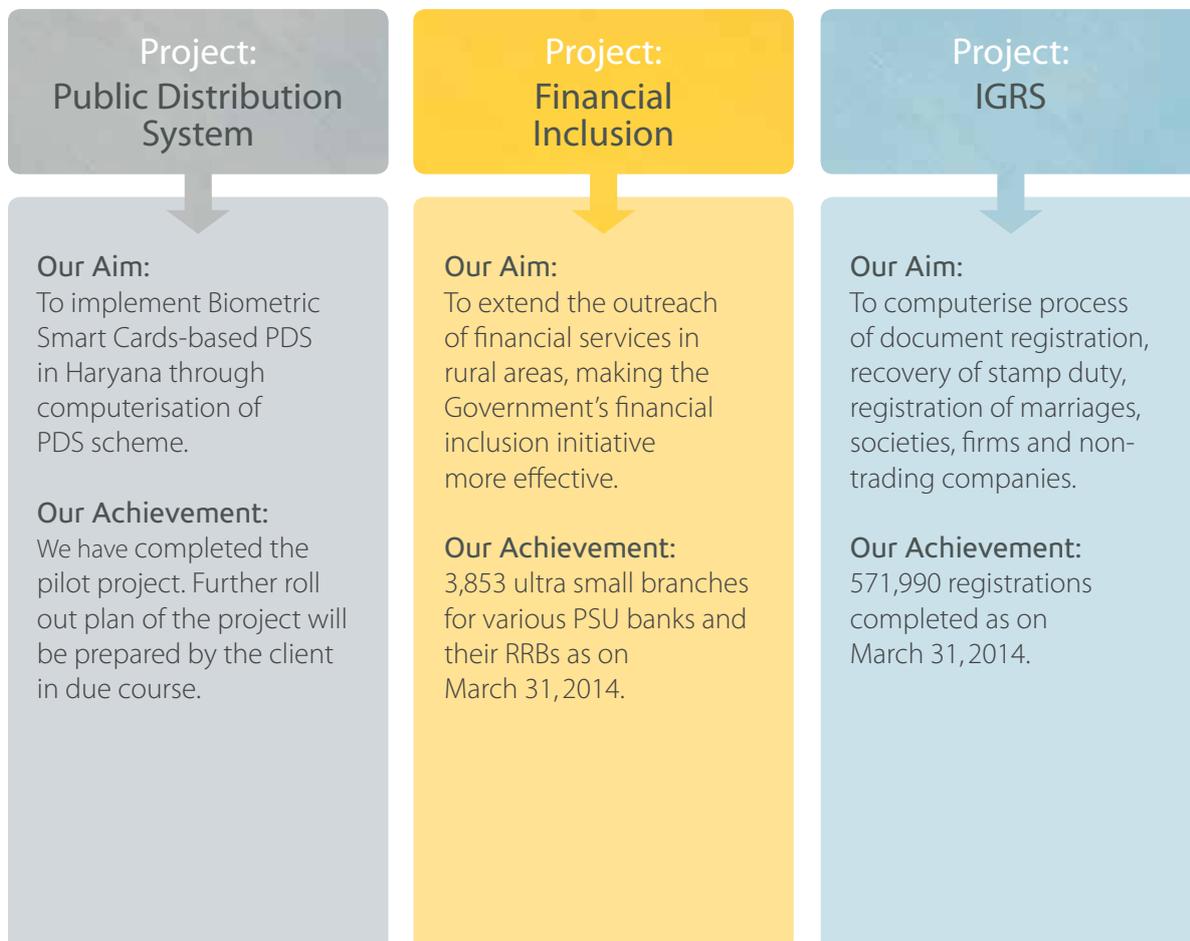

Introduction of paperless digital record keeping for registrar offices.

Our Achievement:

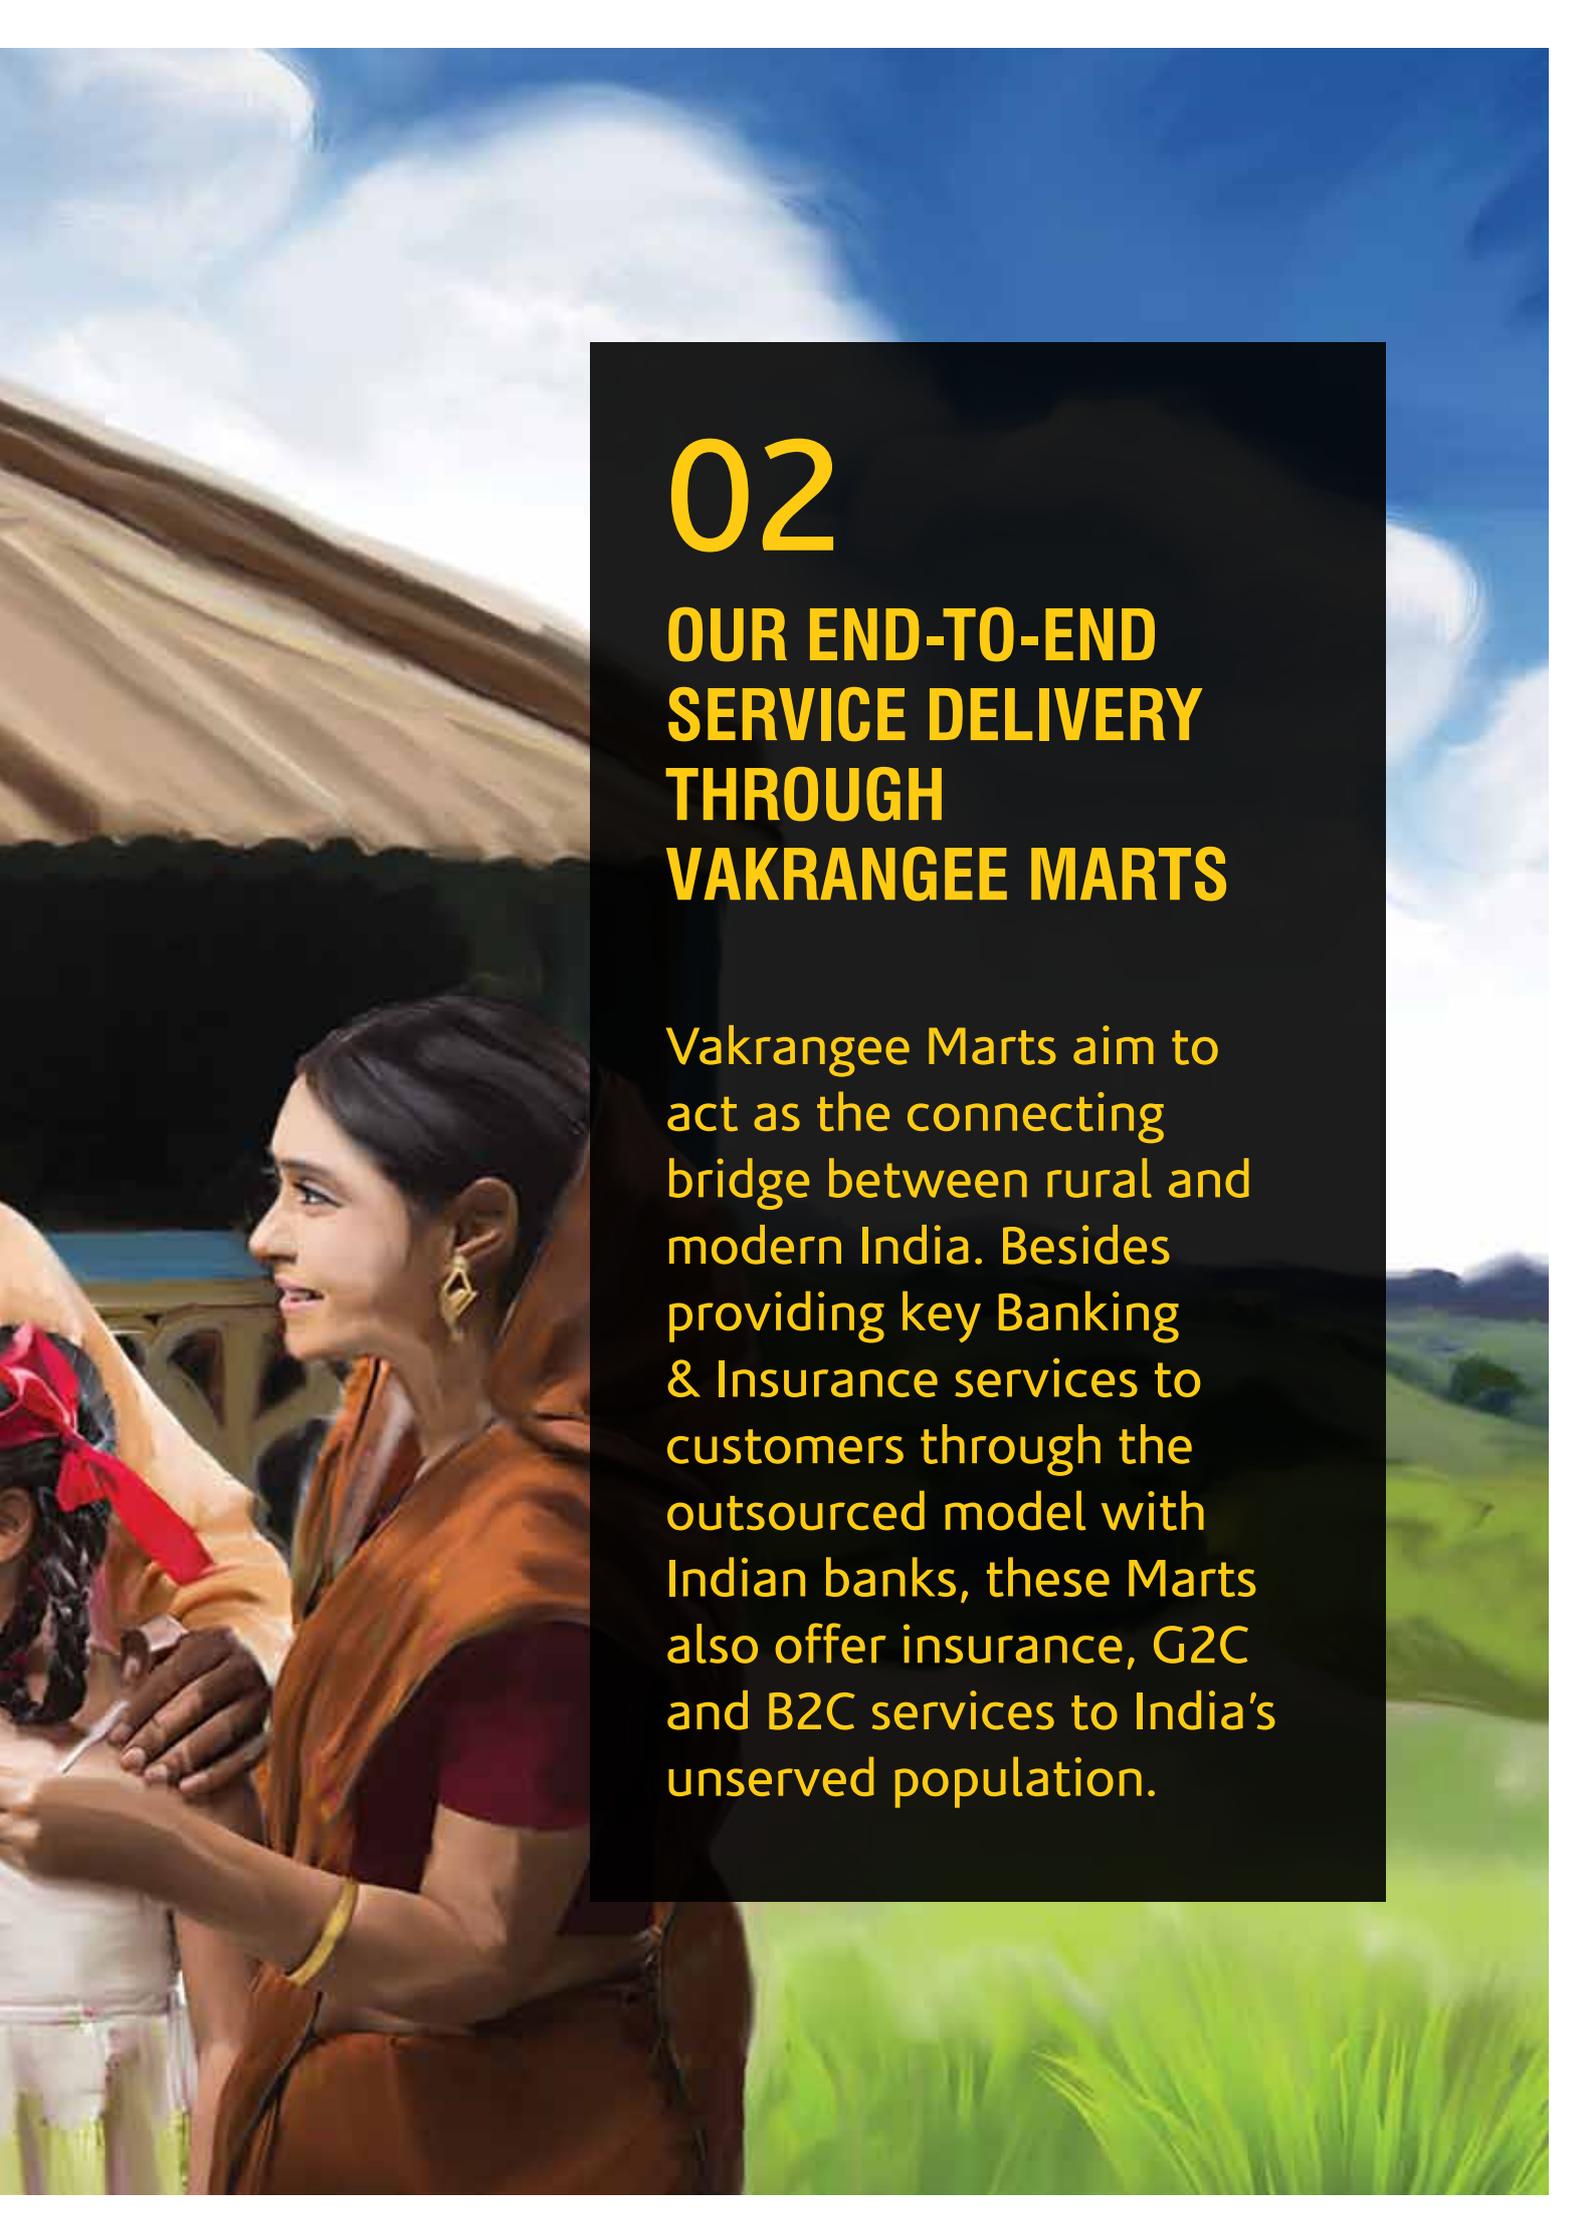

We have completed dematerialisation of 15 million land title deeds into digital format for Registrar of Deed offices across Philippines.

02

OUR END-TO-END SERVICE DELIVERY THROUGH VAKRANGEE MARTS

Vakrangee Marts aim to act as the connecting bridge between rural and modern India. Besides providing key Banking & Insurance services to customers through the outsourced model with Indian banks, these Marts also offer insurance, G2C and B2C services to India's unserved population.

02

OUR END-TO-END SERVICE DELIVERY THROUGH VAKRANGEE MARTS

Our intent of setting up and managing a robust framework of ultra small branches across India is yet another step towards financial inclusion. Branded as Vakrangee Marts, these outlets provide banking and BFSI services to the under-served population of India with an objective of inclusive growth.

Through our tie-up with 31 public sector banks and our outsourced model, we provide end-to-end banking services in India. Through the best breed of functional modules, we aim to provide access to real-time basic banking transactions with technology-driven real-time connectivity at Gram Panchayat level, besides a host of Banking and Insurance services. In addition, these Brick & Mortar branches will offer a host of G2C and B2C services, becoming a one-stop shop for India's under-served population.

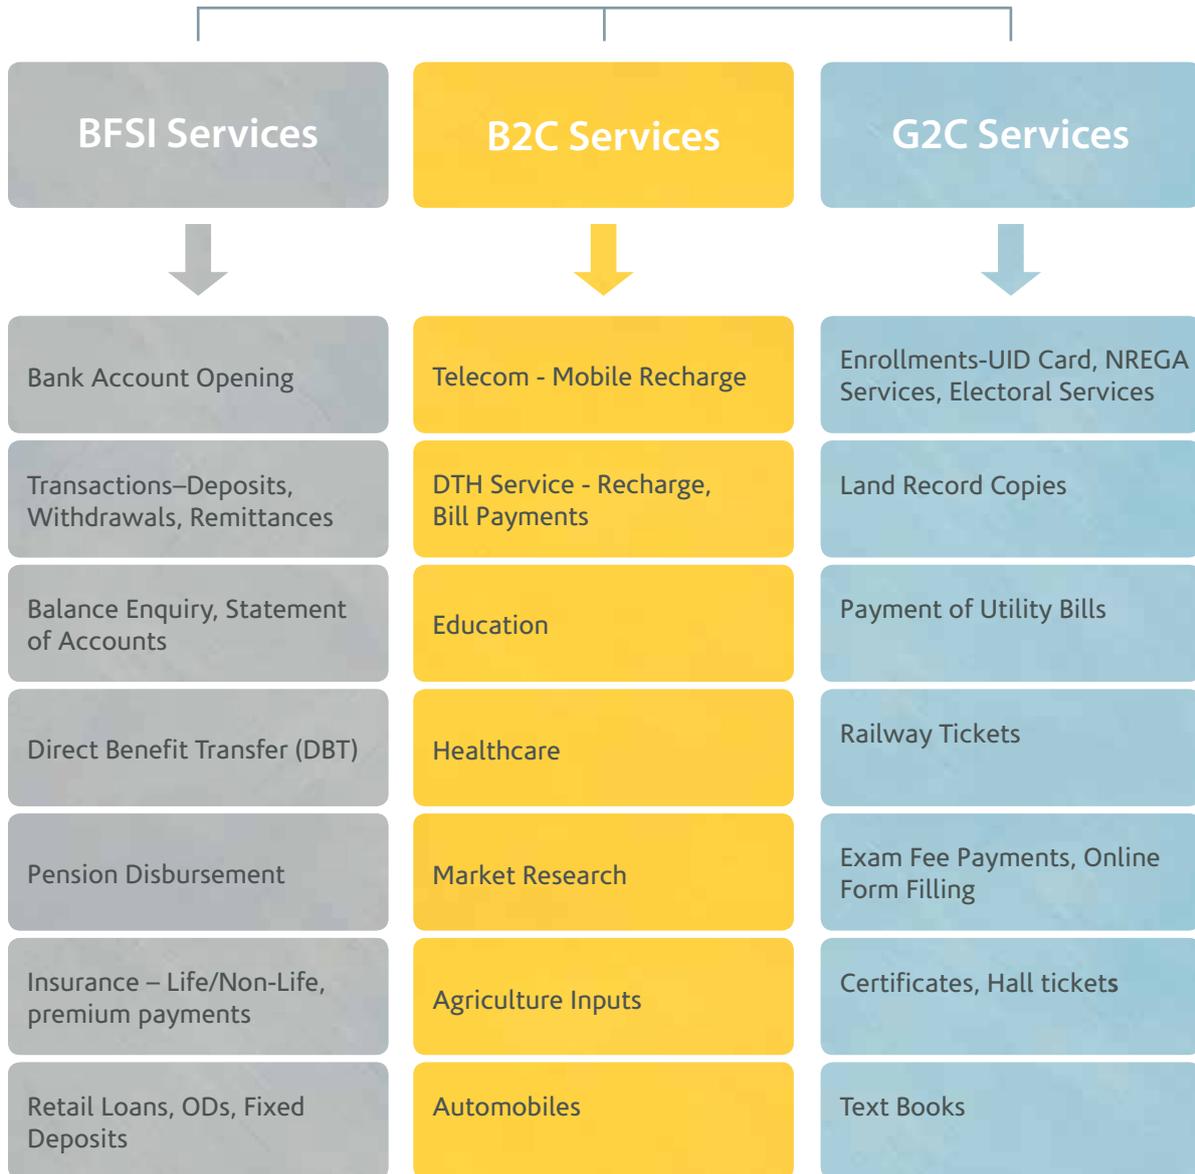

Vakrangee Marts are our touch-points to deliver services to citizens through our cutting-edge technology. About 3,853 of these Vakrangee Marts are already operational. Through Vakrangee Marts, our aim is to ensure efficiency, transparency and reliability of services at affordable costs to realise the common man's basic needs. Our B2C services will range the entire income spectrum of services – from direct cash disbursement and recharge coupons to delivering items such as automobiles or high-end consumables.

Wide variety of services & products across the same target consumers at the Gram Panchayat level

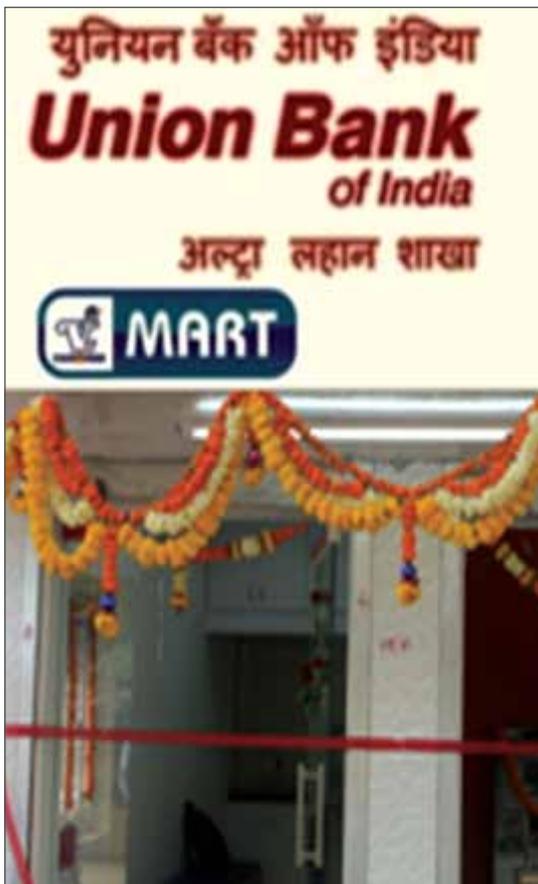

03

IMPROVING INDIA'S ATM DENSITY

We aim to make White Label ATMs an effective channel in significantly improving banking accessibility to Tier III-VI cities, driving the financial inclusion initiative of the Government. We are uniquely positioned to set up White Label ATMs and make them more viable and economically competitive.

03

IMPROVING
INDIA'S ATM
DENSITY

Even though there are roughly around 135,000 ATMs in the country growing at 27% YoY, India is a highly under-penetrated market. There are 282 ATMs in South Korea, 182 in Russia, 127 in Japan and 37 in China per 100,000 population, while in India there are only 11 ATMs per 100,000 of population (Source: the World Bank). India has been adding an average of 16,000 ATMs each year over the last five years, but the growth has been largely concentrated in Tier I and II centres of India. The cities falling in Tier III-VI categories are largely under-penetrated.

We have received a final authorisation from the Reserve Bank of India (RBI) in setting up, owning and operating 15,000 White Label ATMs in India within the next three years. This followed RBI's grant to non-banking entities to provide ATM services to customers from all banks. We will maintain a rural-to-urban ratio of 2:1 in our model of setting up White Label ATMs. For every 1 WLA in Tier I and II centers, there will be 2 WLAs set up in Tier III-VI areas. Further, a minimum of 10% of this will be set up in Tier V-VI centers.

We will benefit through the receipt of transaction fee from banks for the use of our ATM network. In this manner, we gain the opportunity of earning additional revenues through advertisement and other value-added services, as per the regulations.

15,000

ATMs to be set up by
Vakrangee in 3 years time

Our Competitive Advantages

- a. ATM adjoining our ultra small bank branch to increase our revenues and cost synergies
- b. Our ATMs will be biometric enabled allowing transactions using finger prints as well as cards. This shall increase the ATM market size from the number of ATM cards to the number of UID cards.
- c. Large number of value-added services being offered at Vakrangee Marts in terms of banking, insurance, G2C and B2C, adjoining the ATM.

04

MAKING PEOPLE OUR COMPETITIVE ADVANTAGE

A motivated and committed workforce is the quintessence of our strength and sustained business success. There is a much sharper focus on training, learning and development within the company to build leaders that can perform in a competitive environment. With a motivated workforce, we focus on constant growth of the Vakrangee brand and fulfil our zeal of becoming the “most trusted consumer point” for India.

04

MAKING PEOPLE OUR COMPETITIVE ADVANTAGE

We are a people-oriented company and we truly believe that “happy and energised” employees are the key to our business success. At Vakrangee, a strong and dynamic workforce is our most valuable asset. We continue to strengthen the motivation of our employees and remain committed to attracting and retaining talent by following global best practices. This is aimed towards ensuring maximisation of our human capital potential and enabling them balance their professional and personal lives.

An investment in knowledge always pays the best interest. To ensure this, we endeavour further development of each of our employee by enhancing their organisational knowledge, building domain expertise and encouraging skills development. Our focus is on supporting the development of their skills, knowledge and understanding at work. We strive to expand the abilities of our human resources to ensure their continuing development and deepening of skill base.

Most importantly, embracing challenges and improving our business performance makes our goals more achievable and reaching them, far more enjoyable. We ensure that excellence never goes unrecognised. We retain a talented team with employees engaged in delivering exceptional results. Our objective is to build the right work culture within the organisation.

Towards our Corporate Growth objectives

- Talent management
- Employee engagement
- Recognition processes
- Motivation strengthening
- Individual career development

Management Discussion & Analysis

A SERIES OF REFORM MEASURES BEING TAKEN BY THE INDIAN GOVERNMENT IS AIMED AT REVIVING THE INDIAN ECONOMY AND INVESTOR SENTIMENTS. IN ADDITION, THE RESURGENCE OF EXPORTS, PROSPECTS OF A REVIVAL IN THE GLOBAL ECONOMY AND MODERATION IN INFLATION POINT TOWARDS A BETTER OUTLOOK FOR THE DOMESTIC ECONOMY DURING FY2014-15.

Economic Overview

Global Economy

The global economy experienced subdued growth for another year in 2013. The economy grew at its slowest rate since 2009 of approximately 2.9%. Under-performance was observed across almost all regions. Most developed economies continued to under-perform in an uphill battle against the effects of the financial crisis. However, prospects for 2014 look brighter with a forecast of improved growth for developed economies such as Germany, Japan, the United Kingdom and the United States. The International Monetary Fund (IMF) has raised the global economic growth outlook for 2014 to 3.6% and this is expected to accelerate to 3.9% in 2015. Growth in advanced economies is seen increasing to about 2.3% during FY2014-15, a 1% improvement over 2013. Key drivers for this improvement are a reduction in fiscal tightening and highly accommodative monetary conditions.

Among the advanced economies, growth is expected to be the strongest in the United States at about 2.8%. In the Euro area, growth is projected to be positive but varied. In the emerging markets and developing economies growth is projected to gradually pick up from 4.7% in 2013 to about 5% in 2014 and further to 5.3% in 2015. This will be aided by stronger external demand from advanced economies. Economic growth in China is projected to remain steady at 7.5% in 2014 as authorities seek to rein in credit and advance reforms, while ensuring a gradual transition to a sustainable growth path.

Indian Economy

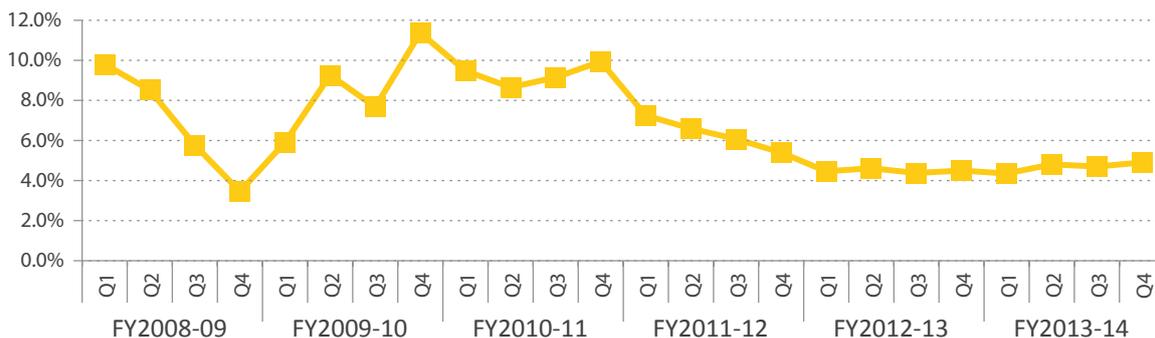

The Indian economy weathered the global financial crisis rather well. It quickly recovered from the decline in FY2008-09 to a healthy growth rate of around 9% annually during FY2009-10 and FY2010-11. However, the recovery was short-lived as economic growth decelerated to 6.2% in FY2011-12 and further to 5.0% in FY2012-13 due to domestic and external factors. The Indian economy registered a 4.7% growth in the fiscal year FY2013-14, in terms of GDP at factor cost at constant prices.

The International Monetary Fund (IMF) has estimated a better year ahead for the Indian economy, as per the World Economic Outlook released in January 2014. A series of reform measures have been taken including the clearance of several large-scale projects by the Cabinet Committee on Investment. These are collectively projected to help revive the Indian

economy and investor sentiments. In addition, the resurgence of exports, prospects of a revival in the global economy and moderation in inflation point towards a better outlook for the domestic economy during FY2014-15.

THE INDIAN FINANCIAL SYSTEM IS STILL LARGELY UNDER-PENETRATED. AROUND 58.7% OF HOUSEHOLDS IN INDIA (54% IN RURAL AND 67.8% IN URBAN) AVAIL BANKING SERVICES.

Industry Overview

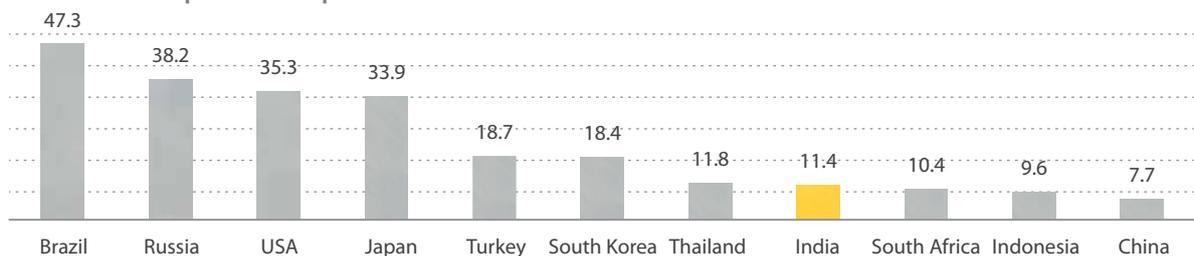

Financial Inclusion in India

The Indian financial system is still largely under-penetrated at the rural level. As per census 2011, only 58.7% of households (54% in rural and 67.8% in urban) are availing banking services in India. The World Bank Findex Survey (2012) indicated that only 35.2% of Indian adults had any access to a formal bank account, only 2% of adults used a bank account to receive money from a family member living in another city/country and only 4% used a bank account to receive any kind of payment from the Government. Further, the National Sample Survey Organisation's (NSSO) 59th Round Survey results revealed that 73% of farmer households have no access to formal sources of credit. Furthermore, as per the estimates of the Reserve Bank of India (RBI), only 10% people in India have a life insurance cover, only 13% have a debit card, while only 2% own a credit card.

The RBI commenced its Financial Inclusion (FI) Initiative in India way back in 2004, when it set up the Khan Commission to study the status of Financial Inclusion in India. Based on the study, RBI laid down several guidelines for its FI Initiative in 2005-06. The key objectives of this initiative were as follows:

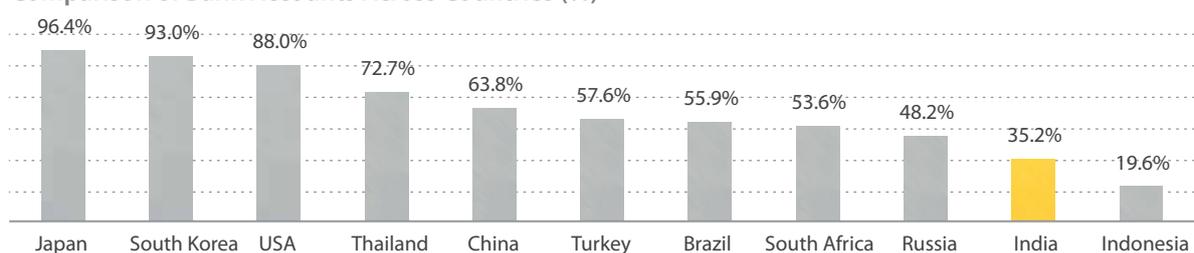

- **Provide a Platform for Inculcating 'Savings Formation':** A majority of the people living in rural areas do not have any access to banking facilities. The savings formation is negligible and surplus money is invested primarily into physical assets such as land, buildings and gold. Absence of secured savings in a bank makes them vulnerable to any financial pressures. Hence, the presence of banking services and products is essential for inculcating savings habit in rural India.
- **Provide Access to Formal Credit:** Rural India is largely unbanked and highly dependent on informal credit medium such as family, friends and money-lenders, which in most cases ends

Bank Branches per 100k Population

Source: The World Bank

Comparison of Bank Accounts Across Countries (%)

Source: IMF (2011)

35.2%

Indian Adults having access to a formal Bank Account

in coercion and exploitation. Hence, formal banking credit is very essential to encourage rural entrepreneurship and prosperity.

- Plug Leakages in Government Subsidies and Welfare Programmes:** A considerable portion of funds targeted towards the poor people actually fails to reach them owing to bureaucratic leakages in the government distribution system. Direct benefit/cash transfer by the government is aimed at addressing the leakages in the present system, enabling the beneficiaries get access to these funds.

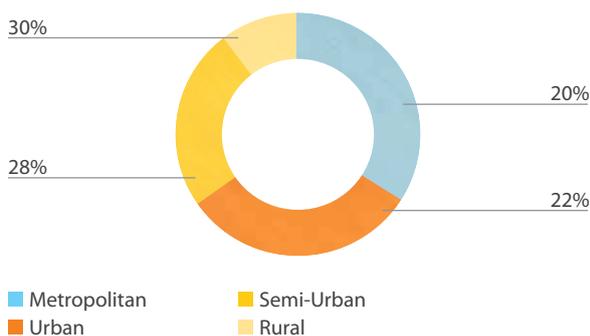

Based on the above objectives of the FI Initiative, RBI introduced the following policy initiatives:

- Opening of No-Frills accounts or Basic Savings Bank Deposits (BSBD) accounts:** Provide zero balance accounts, receipt/credit through bank branch, ATM, electronic payment channel, small overdraft facility to meet emergency credit requirements.
- Engaging Business Correspondents:** In January 2006, RBI permitted banks to engage non-banking entities such as Non-Governmental Organisations, Micro Finance Institutions, Section 25 companies, Registered NBFCs not accepting public deposits, Post Offices, among other entities, as Business Facilitators (BFs) and Business Correspondents (BCs) for providing financial and

banking services. However, the credit sanctioning authority, grievance management and KYC norms' compliance shall be the responsibility of the banks.

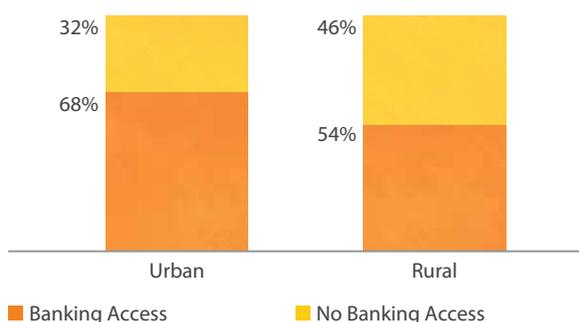

- Use of Technology:** To enable efficient credit delivery in rural and remote areas through CBS, biometric authenticated secure transactions and a robust payment system.
- Relaxation of KYC Norms:** Facilitate easy opening of bank accounts, especially with balances not exceeding ₹ 50,000 and aggregate credits not exceeding ₹ 1,00,000 in a year.
- Simplified Branch Authorisation Policy:** Permit domestic banks to freely open branches in Tier II to Tier VI regions with a population of less than 1 lakh under general permission, subject to reporting.
- Compulsory Requirement of Opening Branches in Unbanked Villages:** Banks need to allocate at least 25% of the total number of branches opened during the year in unbanked rural areas.
- Opening of Intermediate Brick & Mortar Branches:** For effective cash management, documentation, and close supervision of BC operation, banks have been advised to open an intermediate structure between the present base branch and BC locations.

Financial Inclusion Plan 2010-2013

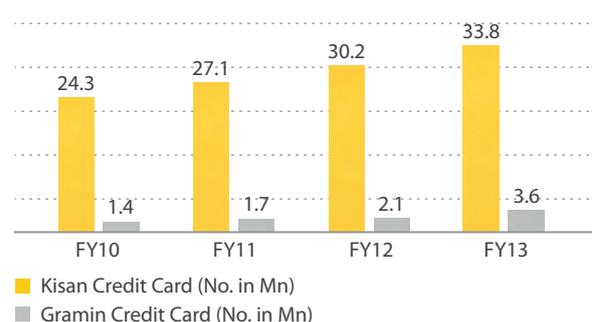

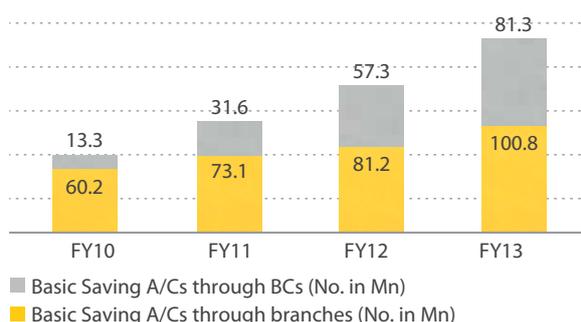

RBI encouraged banks to adopt a structured and planned approach towards financial inclusion in India through the preparation of Financial Inclusion Plans (FIPs). The first phase of FIPs was implemented during the period 2010-2013. Progress made by banks under

FIP during 2010-2013 period has been summarised in the below chart and table. For the second phase of FIP during the period 2014-2016, the remaining 4,90,000 unbanked villages have been identified and allocated to banks for opening banking outlets by March 2016.

THE NEW “BUSINESS CORRESPONDENT” MODEL OF BANKING IN INDIA REQUIRES SETTING UP BRICK & MORTAR BANK BRANCHES OPERATING AT THE GRAM PANCHAYAT LEVEL.

Evolved Business Correspondent Model by RBI

The earlier BC model, introduced by RBI in 2006, was found to be inadequate to meet the financial inclusion plans set up by RBI. Various reasons have been identified behind the ineffectiveness of the earlier BC model, which are mentioned below:

- **Low economic viability:** Lack of adequate compensation from banks failed to incentivise BCs to effectively operate at the rural level, which primarily generates low volume transactions.
- **Inadequate support from banks:** Lack of necessary hand-holding and training from banks for effective supervision of BC operations, introduction of new products and services, cash management and customer grievances.

- **Low service standards:** Low service levels due to insufficient BC agents, infrequent visits to villages, delayed payments to beneficiaries and reconciliation errors.

The above mismatches led RBI to introduce an Evolved BC model in 2012. Under the new model, RBI divided India into 20 clusters (with similar market size and opportunity). Each cluster will be exclusively operated by a Business Correspondent Agency (BCA) for a period of 5 years, with 2 years of mutual extension. Further, RBI also permitted all BCAs to offer insurance, Government-to-Citizen (G2C) and Business-to-Customer (B2C) services at the BC branches to improve their overall economic viability. The new model required all BCAs to set up Brick & Mortar bank branches operating at the Gram Panchayat level. The government’s direct benefit transfer scheme turned out to be a strong driver for opening more BC branches at the rural level.

Growth of ATMs in India

The Indian ATM industry witnessed a rapid growth over the past decade, growing at a CAGR of 46.7% from 2005 to reach around 1,50,000 ATMs in February 2014. Despite strong growth, ATM penetration in India continues to be very low. There are only 80 ATMs per million of population in India, compared to 1,390 ATMs in United States, 1,207 ATMs in Brazil, 700 ATMs in UK and 224 ATMs in China. This indicates there is huge opportunity for further growth in ATMs in India, which are expected to reach 3,50,000 ATMs by 2017.

The ATM growth in India has been primarily driven by economic development, rising income levels and improving access to banking facilities across the country. ATMs have emerged as one of the prominent delivery channels for banking transactions in India. While a prime utility for ATMs in India has been that of cash withdrawal and balance enquiry, the machines are now increasingly getting used for performing various other banking transactions such as funds transfer from card to account, application for various loans, bill payments, ticket bookings, mobile recharges, among others.

Banks are engaged in deploying ATMs at a quick pace over the past decade in order to increase their reach across the country. However, most banks deploy ATMs at locations where there is a large customer base or there is an expectation of considerable use. This has resulted into ATM growth getting largely concentrated in the metro cities and urban regions. Rural areas in India account for a meagre 10% of the total number of ATMs deployed in FY2012-13.

WHITE LABEL ATMs WILL BE AN EFFECTIVE CHANNEL IN IMPROVING BANKING ACCESSIBILITY IN TIER III-VI AREAS, THUS DRIVING THE GOVERNMENT’S FINANCIAL INCLUSION INITIATIVE.

Some of the prime reasons behind low rural presence of ATMs are: high cost of setting up bank branches, low transaction volumes, and inability of conventional ATMs to serve rural people. However, with an increasing thrust on financial inclusion, the RBI has devised various policies and measures to increase ATM penetration in rural areas. One of the major policy decisions of RBI has been the introduction of the concept of “White Label ATM” in India in 2012.

White Label ATMs

On June 20, 2012, upon the review of its policy on ATMs, RBI permitted non-bank financial entities (incorporated in India under the Companies Act 1956) to set up, own and operate ATMs in India. These entities setting up, owning and operating ATMs were termed as “White Label ATM Operators” (WLAO) and ATMs operated by these entities were termed as “White Label ATMs” (WLAs). WLAOs will provide banking services to customers of banks in India.

RBI-permitted WLA Schemes

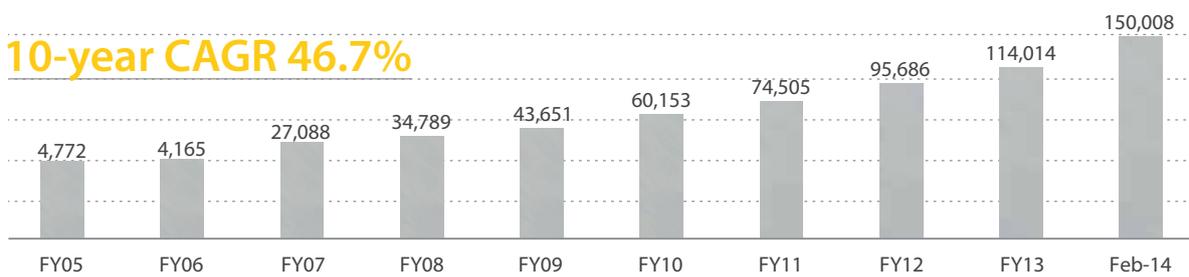

RBI has introduced three WLA schemes under which the WLAO applicants will be awarded a license to set up these ATMs. These non-banking entities applying for a license are required to maintain a minimum networth of ₹ 100 crore to be eligible for the project. As decided by the RBI, each WLAO will earn ₹ 15 per financial transaction and ₹ 5 per non-financial transaction. Further, each WLAO will need to have a sponsor bank for cash settlement of transactions, adequate cash supply at WLA and redressal of failed transactions.

350,000

Number of ATMs projected in India till 2017

ATM Growth in India

10-year CAGR 46.7%

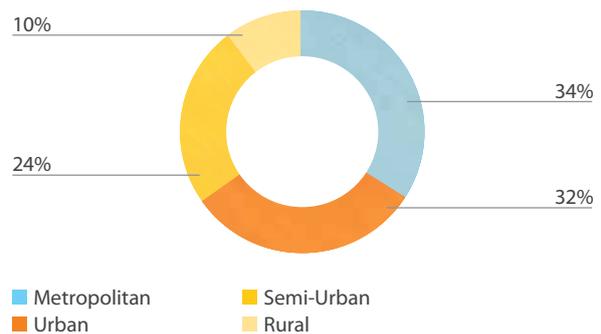

Source: RBI

Scheme A	Scheme B	Scheme C
<ul style="list-style-type: none"> Year 1 - Minimum of 1,000 WLAs 	<ul style="list-style-type: none"> Minimum of 5,000 WLAs every year for three years 	<ul style="list-style-type: none"> Minimum of 25,000 WLAs in the first year and at least another 25,000 in the next two years
<ul style="list-style-type: none"> Year 2 - Minimum of 2x WLAs installed in Year 1 	<ul style="list-style-type: none"> Split – 2:1 (Tier III-VI : Tier I-II), minimum 10% of Tier III-VI in Tier V & VI 	<ul style="list-style-type: none"> Split – 1:1 (Tier III-VI : Tier I-II), minimum 10% of Tier III-VI in Tier V & VI
<ul style="list-style-type: none"> Year 3 - Minimum of 3x WLAs installed in Year 2 		
<ul style="list-style-type: none"> Split – 3:1 (Tier III-VI : Tier I-II), minimum 10% of Tier III-VI in Tier V & VI 		

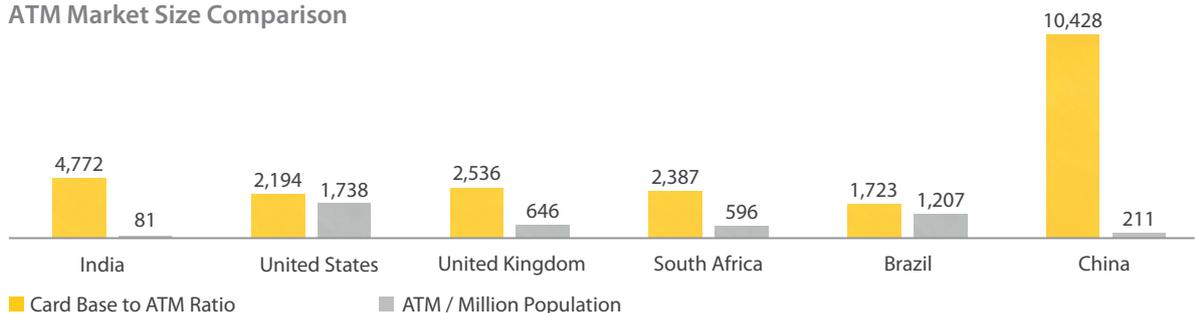

WLAs will be an effective channel in significantly improving banking accessibility in Tier III to Tier VI areas, thus driving the Financial Inclusion initiative of RBI and MoF. With the expansion of the WLA network, customers will have access to basic banking facilities located closer to their homes or place of work. Further, the expanded ATM network at rural level will provide the last-mile connectivity to the masses across India, when the direct benefit transfer gains momentum.

Segment-wise ATM Distribution in India (as on March 2013)

Business Overview

We are one of the e-Governance companies in India with about 20 years of experience in delivering system integration and other services for India's national e-governance plan. We are a technology-enabled company and have built up an extensive delivery network for our services across selected regions in northern and western India. As of June 30, 2014, we delivered our services through 4,237 delivery points. Our business is broadly divided into the following two business segments: (i) e-Governance Business, including systems integration projects and print and data management services; (ii) Vakrangee Mart Business, which includes Financial Inclusion Business, G2C & B2C Services and White Label ATM Business.

We commenced our e-Governance business in 1994 using transliteration and photo-grabbing technology to computerise electoral records for the Election Commission of India, beginning with Office of Collector and District Election Officer, Mumbai Suburban District (MSD), Maharashtra, and thereafter in other districts of Maharashtra and other states, including Rajasthan, Uttar Pradesh, Gujarat, Madhya Pradesh and Chhattisgarh. We began executing projects, directly/indirectly, of National e-Governance Plan (NeGP), including but not limited to MCA 21 for

FROM BEING A SUB-CONTRACTED IT-ENABLER IN E-GOVERNANCE PROJECTS, WE HAVE EVOLVED OURSELVES WITH A RETAIL NETWORK OFFERING G2C, B2C AND BFSI PRODUCTS ACROSS MARKETS.

the Ministry of Corporate Affairs, Passport Seva Kendra for Ministry of External Affairs, and the Rashtriya Swasthya Bima Yojana (RSBY) for Ministry of Labour. We have been one of India's leading enrollment agencies for the Unique Identification Development Authority of India ("UIDAI") to provide biometric-enabled unique identification numbers to Indian residents. We also delivered Digitisation of National Population Register for Ministry of Communication and Information Technology, Government of India.

We also completed a project in the Philippines through our wholly-owned subsidiary company, Vakrangee e-Solutions Inc. to convert 15 million land title deeds into digital format.

In recent years, we leveraged our technology platform, track record on the national e-Governance plan and our delivery network to enter new businesses in the area of financial inclusion. In 2011-12, Vakrangee Limited through its 100% Subsidiary, Vakrangee Finserve Limited, won tenders for setting up and running upto 18,265 Common Business Correspondent outlets of public sector banks at the Gram Panchayat level for the states of Maharashtra, Rajasthan and Delhi. Gram Panchayats are local self-governments for groups of three to five villages. This was done to bridge the financial inclusion gap in India where rural India does not have access to the commercial banking system enjoyed by urban India. The public sector banks, subsequently, through various communications have allotted additional BC outlets to Vakrangee in northern and western states in India wherein Vakrangee intends to set up and manage upto 50,000 branches including around 15,000 branches in urban and semi-urban areas and the balance in Panchayat in rural areas.] In January 2014, we were granted a license from the Reserve Bank of India to establish minimum 15,000 White Label Automated Teller Machines ("WLA") across India within the next three years.

Competitive Strengths

Significant experience in implementing e-Governance projects

We are one of the system integrators for e-Governance projects in India, and are empanelled in the (T3-F4) category by Unique Identification Authority of India (UIDAI), allowing us to undertake demographic and biometric data collection for UID enrollment PAN India basis. Our expertise spans the entire spectrum of technology services for e-Governance projects from data digitisation to technology management. We have evolved our business model from being a sub-contracted IT-enabler in e-Governance projects into a retail network offering Government to Consumer ("G2C"), Business to Consumer ("B2C") and Banking, Financial Services and Insurance ("BFSI") products across our markets for our e-Governance services. We have grown from being a sub-contractor for the MCA 21 project of Ministry of Corporate Affairs to being a System Integrator consortium partner for implementing Smart Card based Public Distribution System in the State of Haryana to winning as lead bidder for several important national e-Governance projects, including but not limited to for the UIDAI, National Population Register, Common Service Centre in Punjab and Rajasthan and Inspector General of Registration & Controller of Stamps (IGRS) Maharashtra. We believe that our track record of implementing important national e-Governance projects in India has placed us

42 mn

UIDAI Enrollment by Vakrangee (till June 30, 2014)

in a strong position to bid for and win new projects under NeGP of the Government of India.

We are one of the e-Governance players who have been a part of various mission-mode projects for over two decades. With a foot print in most parts of the country, we believe we have first mover advantage to leverage this huge opportunity from the ₹ 1.1 trillion "Digital India" mission of our beloved Prime Minister .

Extensive presence across northern and western India that gives us an early mover advantage for our Financial Inclusion business

We have a network of 4,237 points of contact as on June 30, 2014 across rural and urban areas of northern and western India that we have built up over the years. We have built up an extensive last mile infrastructure and grass root level connectivity to effectively deliver services to large parts of India, particularly in rural areas. Our local presence has also given us a deep understanding of ground realities and complexities in rural India, including flexible working hours, power and connectivity issues and the challenges involved in imparting training. We have built up long standing business relationships with local vendors across our markets, providing us an advantage over other competitors. Our operations are spread in different parts of northern and western India, which has equipped us with multi-lingual and multi-cultural expertise that will be difficult for our competitors to replicate. We believe that our extensive presence across northern and western India has been instrumental in successfully delivering financial inclusion services for public sector banks in these states.

Only a small proportion of the population in India has access to normal banking services with only ~40% of the populace having a bank account. India lags other developed markets considerably having 11.4 branches per 100,000 adults compared to 38.2, 35.3, 18.4 branches in Russia, USA and Korea (Source: World Bank as of 2012). India has an ATM penetration of only 11.2 ATM per 100,000 adults compared to 283, 182 and 119 in Korea, Russia and Brazil (Source: World Bank as of 2012).

15,000

White Label ATMs to be set up by Vakrangee in 3 years

Vakrangee intends to set up and run 50,000 plus "Brick & Mortar" bank branches on behalf of PSU banks at Rural and Urban areas in northern and western states in India.

Further, the new Government in India has been re-enforcing the financial inclusion initiative of the last government by implementing a new scheme called '**Pradhan Mantri Jan Dhan Yojana**', a holistic Financial Inclusion Scheme to bring every Indian into the banking net including the poorest of the poor. The scheme aims to provide bank accounts to 15 crore individuals in Rural and Urban India, along with a life insurance cover of ₹ 1 Lacs. (source: http://zeenews.india.com/business/news/finance/independence-day-narendra-modi-announces-financial-inclusion-scheme_106167.html)

The two-phase Financial Inclusion Mission, which has been approved by the Cabinet. The main features of the scheme include an overdraft facility of ₹ 5,000 for Aadhaar-linked accounts, a RuPay Debit Card with an inbuilt ₹ 1 Lacs accident insurance cover and a minimum monthly remuneration of ₹ 5,000 to Business Correspondents who will connect the last link between the account-holders and the Banks.

Some Elements of the new Financial Inclusion Programme:

- Aiming to cover all households in the villages
- Including both rural and urban population
- Focusing on financial literacy, opening of Basic Savings Bank Deposit Account, Convergence with other subsidy schemes and Micro Insurance/ Pension, RuPay Debit Card and Kisan Credit Card
- Monitoring the mechanism at the Centre, State and District level. Active participation of States and districts emphasised.

PRADHAN MANTRI JAN DHAN YOJANA IS A HOLISTIC FINANCIAL INCLUSION SCHEME TO BRING EVERY INDIAN INTO THE BANKING NET AND PROVIDE BANK ACCOUNTS TO 15 CRORE INDIVIDUALS IN RURAL AND URBAN INDIA, WITH A LIFE INSURANCE COVER.

- Opening of Accounts online on Core Banking Solution of banks. Provision of RuPay Card to each account-holder, giving him freedom to operate anywhere.
- Proposition to launch an advertisement campaign for enhanced 'brand visibility' of the Financial Inclusion programme. Besides, rural branches of these banks will have a dedicated financial literacy cell.

Vakrangee has been a "Common BC" and "National BC" for various Banks in India and is fully geared up to give these services at its outlets.

Local manpower and In-house technology

We are also able to appoint local people, which has been critical for our success. We have access to a large trained and certified resource pool that has executed very large government projects involving direct citizen interface. We also have a strong ability to consolidate local data by managing our operations through a well-defined command and control structure, comprising State-Heads, Division Leads, District Executives and Block Executives and Technical Support Desk. We also use various online monitoring tools for program management and information reporting.

Our roots in the technology industry provide us with several competitive advantages. We are one of the non-banking companies having technology platform integrated with core banking solutions of public sector banks, allowing for delivering real time, inter-operable and paper less banking to the citizens at the Panchayat level. We also have hardware systems in place that are specifically developed and customised to meet rural needs, including but not limited to V-SATs with power back-up and Gensets with LPG fuel supply. We also have resources at the district/block level who are trained to solve day-to-day IT issues.

Experienced management and entrepreneurial culture

We have an experienced management team with top 20 members bringing in more than 360 manyears of experience. We believe that our senior management has pioneered our growth and fostered a culture of innovation, entrepreneurship and teamwork within our organisation. We believe that our strong management team and corporate culture are significant competitive strengths.

Business Strategy

GROW OUR FINANCIAL INCLUSION BUSINESS BY INCREASING THE NUMBER OF BC OUTLETS OF PUBLIC SECTOR BANKS

Vakrangee intends to set up and manage upto 50,000 branches including around 15,000 branches in urban and semi-urban areas. In rural India, our strategy is to enter into franchisee arrangements with locals in local rural areas. We then provide technological infrastructure and training to the franchisee, who then operates the outlets on day-to-day basis. As of June 30, 2014, there were 4,237 Vakrangee outlets up and running , and our target roll-out plan is as follows:

Out of total **50,000** outlets to be set up and run by Vakrangee by March 2017:

- **35,000** outlets are in rural areas in around 5,000-population area (Tier-VI / V Locations)
- **15,000** are in semi-Urban or Urban areas

- ◆ Approximately **12,000** outlets are in 20,000-50,000 population (Tier-III/IV locations); and
- ◆ Balance **3,000** outlets are in more than 50,000 population (Tier-I/II locations).

GROW OUR FINANCIAL INCLUSION BUSINESS BY INCREASING THE NUMBER OF SERVICES OFFERED IN OUR NETWORK OF BC OUTLETS

We intend to grow our revenues and our business by cross-selling other G2C and B2C products and services through our network of BC Outlets. The additional G2C services we offer through our BC Outlets includes, without limitation, Electoral services, Land records, Issue of certificates, Utility/Telephone Bills (Government Undertakings). The additional B2C service we offer through our BC Outlets include, without limitation, prepaid mobile recharge services, direct-to-home, television bill payments services Photocopy, Printing & Lamination, Post-paid Telephone Bills (Private).

Enter into the White Label ATM (WLA) Business in India

The RBI has licensed us to set up and manage a minimum of 15,000 White Label ATMs across India within three years. We are required to implement this roll out at the rate of 5,000 ATMs a year and maintain a rural-to-urban ratio of 2:1 (i.e., for every white label ATM set up in Tier I or Tier II centres we will need to establish two white label ATMs in Tier III to Tier VI centers. We will earn revenues by participating banks

paying us a transaction fee for every transaction, including financial and non-financial transactions, conducted through our white label ATMs.

We intend to implement our strategy of entering into this business by establishing the WLA adjoining to the BC outlets in semi-urban and urban outlets. We also intend to have our ATMs biometric-enabled that will allow customers to access and conduct ATM transactions using their fingerprints in addition to bank cards thereby increasing the ATM market size to the number of UID in this country. A significant portion of the proceeds from the offering are intended to be deployed in implementing our white label ATM roll out plan across India over the next year.

Build the Vakrangee brand

We intend to consistently build the Vakrangee brand awareness among our clients and consumers across our different businesses and target verticals as a name associated with high quality products and services. To achieve this objective, we intend to expand our marketing efforts with advertising campaigns and promotional efforts, including participation in media and industry analyst events, sponsorship of and participation in targeted industry conferences, trade shows, community outreach programs and investor relations.

Business Segments

e-Governance Business

We are one of the e-Governance companies in India with more than 20 years of experience in delivering

system integration and other services for India's national e-Governance plan. Set forth below are some major e-Governance projects that we have executed:

UID Enrollment

The Government of India through the UIDAI introduced a policy to issue a unique identity number to all Indian residents, in a phased manner, which can be used for delivery of all government benefit schemes.

We are one of the companies empanelled in the (T3 F4) category by Unique Identification Authority of India (UIDAI), allowing us to undertake demographic and biometric data collection for UID enrollment pan India basis. We have completed more than 42 million UID generations as of June 30, 2014 directly, which is the highest among all the agencies involved in Aadhaar enrollment. Our services include deployment of UID client software, establishing more than 4,000 enrollment centers across India, capturing demographic and biometric data of residents. We conduct our operations for UID enrollment through our large pool certified staff.

We commenced the project in the year 2011-12 and expect to complete it by 2016-17.

Sarva Shiksha Abhiyan

Sarva Shiksha Abhiyan ("SSA") is an initiative by the Government of India to provide universal access to elementary education for children between the ages of 6 (Six) and 14 (Fourteen). SSA seeks to

3,853

Vakrangee Marts currently operational

improve access to education across the county, bridge gender gaps in education, and to provide equal education access to all children. SSA is being implemented in partnership with State Governments and addresses the needs of more than 192 million children in approximately 1.1 million habitations.

We participate in the project by printing and/or supplying books for children and setting up computer aided learning systems in schools. We earn revenues for every book we print/supply. We also earn fixed revenues per every computer aided learning system we provide.

Public Distribution System

We are in the process of executing a biometric smart card based public distribution system ("PDS") in the State of Haryana to computerise the PDS scheme. Our services include procurement, commissioning and maintenance of IT and smart card infrastructure, installation and operation of approximately 9,300 smart card points of sale terminals, setting up networks and connectivity across sites, developing software for points of sale, data digitisation, smart card personalisation and printing and setting up a call center for technical support.

The pilot work for these projects has been completed and further roll out plan is awaited from client. We believe we can leverage the know-how from this project in future PDS projects to be rolled-out across the country with the same technical features coming under ₹ 1.1 trillion Digital India initiative of the new central government. (Source <http://pib.nic.in/newsite/pmreleases.aspx?mincode=61>)

Rashtriya Swasthya Bima Yojana

The Rashtriya Swasthya Bima Yojana ("RSBY") is a Ministry of Labour and Employment, Government of India project that seeks to provide health insurance for families that are below the poverty line in India. These families are entitled to more than 700 in-patient

WE INTEND TO BUILD THE VAKRANGEE BRAND AWARENESS AMONG OUR CLIENTS AND CONSUMERS AS A NAME ASSOCIATED WITH HIGH QUALITY PRODUCTS AND SERVICES.

medical procedures with a cost of up to ₹ 30,000 per annum for a nominal registration fee of ₹ 30. Pre-existing medical conditions are also covered and there is no age limit. The scheme is entirely cashless and coverage extends to the head of the household, spouse and up to three dependents. 479 districts in India have been selected for the implementation of this scheme and approximately 37 million families have been enrolled as of June 30, 2014.

Our services for the RSBY scheme include collecting biometric data from different villages, system integration, issue and renewal of smart cards and printing of RSBY information booklets. For centre management, we provide the resources, the hardware and other equipments required for every designated centre either at the enrollment stations.

For our center management services, we earn fixed revenues every month for every district depending on the number and type of various equipments and resources supplied by us. We earn revenues for every new smart card issued/renewed by us.

Inspector General of Registration & Controller of Stamps (IGRS)

We are executing a project to computerise the process of registering documents and recovering stamp duty in accordance with the Indian Stamp Act. Our services include computerised registration of properties, marriages, societies, firms and non-trading companies, among others. We earn revenues for every transaction that we register.

Print and Data Management Services and Election related projects

We offer print management services and data management services to election commission related projects and to private corporate in India. Some of our major projects in this area include work for the Office of Chief Electoral Officer for various states. We have also been aggregating and updating electoral data for election commission project.

WE LEVERAGED OUR TECHNOLOGY PLATFORM, TRACK RECORD ON THE NATIONAL E-GOVERNANCE PLAN AND OUR DELIVERY NETWORK TO ENTER NEW BUSINESSES IN THE AREA OF FINANCIAL INCLUSION.

Vakrangee Mart Business

Vakrangee Mart business consists of Financial inclusion business; G2C/B2C business as well as our new initiative WLA business.

Financial Inclusion

We leveraged our technology platform, track record on the national e-governance plan and our delivery network to enter new businesses in the area of financial inclusion. In 2011-12, Vakrangee Limited through its 100% Subsidiary, Vakrangee Finserve Limited, won tenders for setting up and running upto 18,265 Common Business Correspondent outlets of the public sector banks at the Gram Panchayat level for the states of Maharashtra, Rajasthan and Delhi. Gram Panchayats are local self-governments for groups of three to five villages. This was done to bridge the financial inclusion gap in India where rural India does not have access to the commercial banking system enjoyed by urban India. As on June 30, 2014, we delivered our services through 4,237 BC Outlets.

These fixed BC Outlets are Brick & Mortar Branches of the respective Public Sector Banks / Private Banks/ RRBs with to "One Bank presence in One Panchayat" only. These outlets are equipped with Vakrangee in-house application as well as bank prescribed IT/Non-IT hardware including Micro-ATM with authentication through UID as well as Card and V-SAT for real-time connectivity with respective Bank back-end to run the day-to-day banking operations. These Outlets are integrated with the core banking solution (CBS) of these Banks so that customers of these Bank can, on a real time basis, conduct transactions such as account opening, cash deposit, cash withdrawal, fund transfer, and Direct Benefit Transfer (DBT), among others. In addition to this, Vakrangee also facilitates Loan Disbursement, Fixed Deposit, among others, to the customers of these Banks at these outlets. In a nutshell, these advanced feature of paper-less banking, real time banking and inter-operable

Over
4,000
Aadhaar Enrollment Centers
across India

banking, along with e-KYC enabling at these outlets are the unique features of Vakrangee outlets and critical to the success of last-mile banking. Vakrangee has been enhancing the profitability of these outlets by selling life insurance policies of Life Insurance Corporation of India (LIC) and non-life insurance products from The New India Assurance Company Limited (NIA), after taking corporate agency licenses from them. Vakrangee has also been selling various Government-to-Citizen (G2C) services and Business-to-Citizen (B2C) services at these outlets such as mobile / DTH recharge and Utility Bill collection. Vakrangee has received the White Label ATM (WLA) license from the Reserve Bank of India for setting up and running minimum 15,000 White Label ATMs across the country starting January 2014.

Our BC Outlets take different formats depending on the location. In rural India, where we operate and expect to continue to operate the maximum number of BC Outlets, we follow a franchisee model, where we identify and train village level entrepreneurs to establish and operate bank branches (with all capital expenditure and operating costs being borne by such village level entrepreneur). We provide our franchisees with project management, infrastructure set up and training support as well as providing franchisees with access to new services and updating the content of existing services. We then share in the revenues derived from transactional services offered by the branch.

We usually take approximately six months to establish a Vakrangee Mart in rural India. We commence efforts in targeted villages by campaigning to generate awareness and invite applications from village level entrepreneurs who are interested in being our franchisee by circulating leaflets at gram panchayats (village local self-government body) and other places where potential village level entrepreneurs congregate. We conduct online written tests after scrutinising applications, and appoint the shortlisted

candidate as a franchisee upon completing our KYC procedures. We then open a dedicated settlement account opening for the branch and submit the KYC documents of the franchisee to the relevant public sector banks and relevant government agencies. Once the branch receives police and CIBIL clearance and has been allocated a branch code, we deploy IT infrastructure, including appropriate hardware, software and V-SAT, and commission other infrastructure such as power generators, furniture and fixtures. We together with representatives of relevant public sector banks deliver training to our franchisees and perform transaction enrollment testing of the IT infrastructure. Once all of these procedures are complete, the branch is given a “go live” certificate by the relevant public sector bank, and the branch becomes operational.

In urban areas, we have commenced rolling out and intend to open BC Outlets of public sector banks located nearby the existing branches of the Public sector banks to ease the customer load on existing branches of public sector banks by offering services such as pension disbursements.

New Initiatives

White Label ATMs

According to the World Bank, in 2012 India had an under penetrated ATM market with only 11.2 ATMs per 100,000 adults compared to 283, 182 and 119 in Korea, Russia and Brazil, respectively. In January 2014, we were granted a license from the Reserve

Bank of India to establish a minimum of 15,000 White Label ATMs across India within the next three years. For details in relation to our proposed plan of implementing our white label ATM business, please refer to “Business Strategy” above.

Research & Development

We have a history of innovation that is facilitated by our entrepreneurial culture and the ability to make strategic investments in growth markets. We remain committed to innovation as a key element of our culture. Our efforts also are focused on identifying the areas where we believe we can make a unique contribution and the areas where partnering with other leading technology companies will leverage our cost structure and maximise the benefit to our customers.

Competition

In the e-Governance business, we face competition from various other system integrators. In the Financial Inclusion space, there is competition from existing BCs who have been delivering services in off-line mode wherein the authentication is through smart card instead of biometric; which are not fixed BC outlets. There is also competition from Citizen Service Centres and mobile banking entities (Pre Paid Payment Instruments). In the WLA business, there are other WLA license holders from RBI who are our competitors and Banks also have their own ATM network who we have to compete with.

Human Resources

As on June 30, 2014, we have 725 employees across northern and western states of India. Approximately 67% of our employees are technically qualified, and we have a management team comprising approximately 20 persons. We have been innovative in our internal organisation and have introduced industry leading practices in hiring, resource planning and knowledge sharing. Most of our technical employees are based on-site at grass root level and are recruited locally. One of the keys to attracting and retaining qualified personnel is our variable and performance linked compensation programs. We have had an employee stock option plan and a productivity bonus plan since 2008.

Awards And Certifications

We have won the following awards in recent years:

In January 2014, our Chairman and Managing Director was nominated as being among the top five CEOs shortlisted for the best CEO (IT & ITes) award by Business Today.

We were ranked in the ET-500 Companies as published by the Economic Times in January 2014.

In 2011 and 2012, we were ranked number 18 and 26, respectively, in the Deloitte Technology Fast 50 companies in India.

In 2011, we were ranked number 226 in Deloitte's Fastest 500 growing Asia Pacific companies list.

We are ISO/IEC 20000 and ISO/IEC 27001 certified by the International Organisation for Standardisation; and are CMMI maturity level III certified for our services.

Risks & Concerns

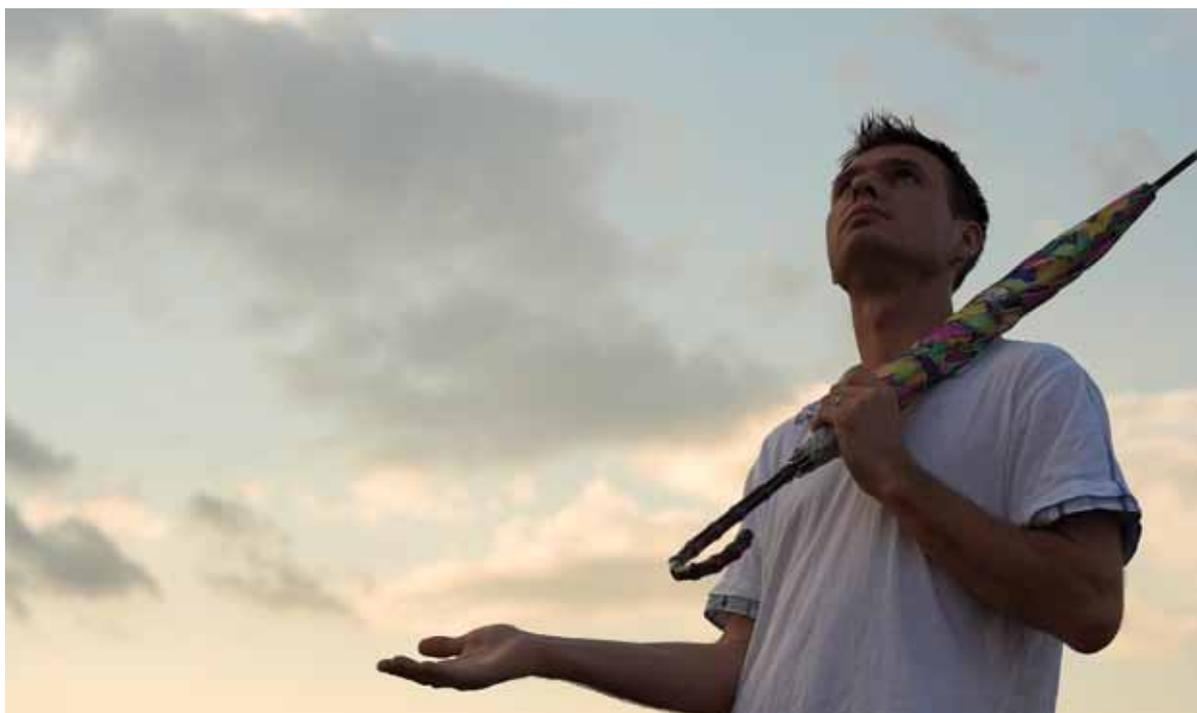

Our sales and profit growth could be adversely affected if our comparable sales from our Vakrangee Marts and our roll out target of Vakrangee Marts are less than what we expect.

We are working in an environment wherein there is one BC Outlet, representing one Bank, in one Gram Panchayat offering all the available banking services to the citizens. We have been able to add life insurance services by being a corporate agent of Life Insurance Corporation of India and non-life services by being a corporate agent of New India Assurance Company Limited. We have also added G2C services and B2C services to make our outlet more profitable.

Our future sales growth can be due to the following factors :

1. Increase in the usage per user per outlet
2. Increase in the number of users per outlet
3. Increase in the number of outlets

Currently, we are able to roll out new outlets much faster due to Central Government's Pradhan Mantri Jan Dhan Yojana drive as well as individual bank's focus to establish their BC Outlets on a war footing. Similarly, we have been able to add new B2C and G2C services in our BC outlets to make it more profitable.

OUR FACILITIES AND ASSETS ARE OPTIMALLY UTILISED AND APPROPRIATE EXPANSION IS BEING PLANNED AND UNDERTAKEN TO MEET OUR FUTURE GROWTH.

However, our ability to increase comparable sales depends on many factors, which, inter-alia, include our ability to introduce G2C and B2C services to customers through our BC outlets network, and changes in government regulations, competition from Citizen Service Centres/ PPIs. As a result of these factors, it is possible that we will not achieve our targeted comparable sales or that the change in comparable sales could be negative. A number of these factors are beyond our control, and therefore, we cannot assure that we will be able to achieve or sustain comparable sales increases.

We have recently entered into the White Label ATM business. We have limited experience in this business.

We do not have any prior experience in establishing and operating white label ATMs or providing the services that we intend to offer through our BC outlet network. However, as on June 30, 2014 we have 4,237 BC outlets up and running which has been achieved in the last one-and-a-half year. As it is a very significant number, it proves our capability of executing projects with limited or no prior experience. However, we may face managerial, technical and logistical challenges while implementing such projects, and we may not be able to anticipate and address such challenges efficiently. Any failure on our part to meet the challenges could cause disruptions to our business, be detrimental to our long-term business outlook and may have a material adverse effect on our business, prospects, results of operations and financial condition.

Risks associated with our Franchisees:

We rely in part on our franchisees, and if our franchisees cannot develop or finance BC Outlets on sustainable basis, build them on suitable locations or open them on schedule or achieve a steady improvement in transaction volumes, our growth and success may be affected.

We identify the franchisees through a well-defined screening process along with police verification and CIBIL background checks to select right kind of franchisee to set-up and operate the BC outlet on

4,237

Vakrangee's Points of Contact across Urban and Rural India as on June 30, 2014

a sustainable basis. Also, the earlier entrepreneur experience is counted as desirable for the identification of the franchisees. In the rural India, the people live under a joint family and lay their hand collectively to make the business a success. In our franchisee model, even though we sign the contract with an individual, the entire family collaborates to run the day-to-day business by individually taking the responsibility for various business activities under the right kind of training imparted by Vakrangee.

Although we have developed criteria to evaluate and screen prospective franchisees, we cannot be certain that our franchisees will have the business acumen or financial resources necessary to operate successful franchises in their franchise areas. Moreover, despite our training, support and monitoring, franchisees may not successfully operate Vakrangee Marts in a manner consistent with our standards and requirements, or may not hire and train qualified personnel. The failure of our franchisees to operate their franchises successfully could have a material adverse effect on us, our reputation, our brand and our ability to attract prospective franchisees and could materially adversely affect our business, financial condition or results of operations. However, the risks such as under-performance, under-commitment / lesser entrepreneurial zeal, can affect business performance, which can vary from outlet to outlet. Also, it can have potential impact on us if they experience any major operational problems or project a brand image inconsistent with our values, particularly if our contractual and other rights and remedies are limited, costly to exercise or subject to litigation.

Increase in revenue from our e-governance business depends on increase in the existing projects transactions and / or winning of a new tender. Our revenue may decline if we lose a major project.

We currently derive, and believe that we will continue to derive, a significant portion of our revenue in our e-Governance business as per National e-Governance Plan (NeGP) of the country. The termination of a project or the loss of a client or a significant reduction in the scope of a project or service performed for a

client could result in a reduction of our revenue. The volume of work we perform on specific projects may vary from period to period depending on the stage of the project. There are a number of factors, other than our performance, that could cause the loss of a client and that may not be predictable. If a project were to be terminated or if we were to lose any of our clients, our revenue and profitability could be reduced.

In Print and Data Management Services business, we do not have long-term customer agreements, and this business may be subject to quarterly and cyclical fluctuations.

Vakrangee initially bid directly to get these order from the election commission and used to execute itself without outsourcing any of the sub activities. But it became difficult to scale it up after a certain point because of stringent small window before the announcement of election. India being a large country, there were logistic issues as well. Therefore, Vakrangee decided to outsource this business and built up a vendor base to execute it. Vakrangee concentrated on the system integration business which brought in higher profit margin business leaving the lower margin business to outsourcing vendor. Currently, the Company has strategically decided to scale down this business in a phased manner restricting this business to the BC Outlets in the northern and western states of India and focus on high growth Financial Inclusion / WLA business along with system integration business as our bread and butter business.

Although our business does not depend on any one customer or group of customers, we cannot be sure that any particular customer will continue to do business with us for any period of time. In

addition, the timing of particular jobs or types of jobs at particular times of year may cause significant fluctuations in the operating results of our operations in any given quarter.

Our business is dependent on certain principal customers who are public sector commercial banks in India and the loss of, or a significant reduction in the number of BC Outlets opened by these customers through us could adversely affect our business. Delay in payment by some of our customers may also affect our business and financial condition.

The Company is dependent on certain principal customers. The Company's principal customers include public sector commercial banks in our financial inclusion business. Since we are significantly dependent on these key customers, the loss of any one of such customers or a significant reduction in demand from some of our customers could have an adverse effect on our business and financial results. Moreover, in the event that these banks do not open as many BC Locations through us as anticipated, to operate such branches, our future results of operations and prospects will be materially adversely affected. Also some of our customers may delay in making payments due to us and this may affect the results of our operations and financial conditions.

Changes in policies of the Government of India (GOI) could adversely impact our results of operations and financial condition.

A significant proportion of our services facilities are located in India, and a significant portion of our revenue is derived from sales of our products and services in the Indian market. Consequently, we, and the market price and liquidity of our shares, may be

WE AIM TO GROW OUR FINANCIAL INCLUSION BUSINESS BY INCREASING THE NUMBER OF SERVICES OFFERED IN OUR NETWORK OF BC OUTLETS. WE SHALL GROW OUR REVENUES AND BUSINESS BY CROSS-SELLING OTHER G2C AND B2C PRODUCTS AND SERVICES THROUGH OUR NETWORK OF BC OUTLETS.

9,300

Smart Card Points of Sale Terminals to be set up in Haryana for PDS

affected by policy changes in India. In particular, our financial inclusion business and our e-governance business is dependent heavily on the GoI's policy of implementing a biometric-enabled universal identification system. In the event that GoI policies change in a manner that moves away from the present universal identification system our business and prospects, particularly our financial inclusion and white label ATM business, will be materially adversely affected.

Similarly, the imposition of foreign exchange controls, rising interest rates, increases in taxation or the creation of new regulations could have a detrimental effect on the Indian economy generally and our Company in particular. Political instability or a change in economic liberalisation and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular. The GoI in recent years sought to implement economic reforms. The role of the GoI and the State Governments in the Indian economy as producers, consumers and regulators have

remained significant and there can be no assurance that liberalisation policies will continue in the future. Any significant change in such liberalisation and deregulation policies could adversely affect business and economic conditions in India generally and our results of operations and financial condition in particular. Furthermore, we are also impacted by political instability in the states where we operate.

Cautionary Statement

Statements in this report pertaining to the Company's objectives, projections, estimates, exceptions and predictions are forward-looking statements subject to the applicable laws and regulations. These statements may be subject to certain risks and uncertainties. The Company's operations are affected by many external and internal factors which are beyond the control of the management. Therefore, the actual position may differ from those expressed or implied. The Company assumes no obligation to amend or update forward looking statements in future on the basis of new information, subsequent developments or otherwise.

Directors' Report

Dear Shareholders,

We are pleased to present the 24th Annual Report together with the audited Balance Sheet and Profit and Loss Account for the year ended March 31, 2014.

1. PERFORMANCE OF THE COMPANY

The Company's performance is summarized below:

• FINANCIAL RESULTS

(₹ in Lacs except EPS and per share data)

	Consolidated			Stand alone		
	2013-2014	2012-2013	YoY growth (%)	2013-2014	2012-2013	YoY growth (%)

Directors' Report

The Company has obtained a certificate from the Auditors of the Company that the Scheme has been implemented in accordance with the SEBI Guidelines and the resolution passed by the shareholders.

12. CORPORATE GOVERNANCE

It is an ongoing process for us to comply with the recommendations of the Narayana Murthy Committee constituted by Securities Exchange Board of India (SEBI). For the financial year ended March, 2014, report on Corporate Governance alongwith the Certificate of the Auditors, M/s S. K. Patodia & Associates, confirming compliance with conditions of Corporate Governance as stipulated under Clause 49 of the Listing Agreement forms part of the Annual Report.

13. CORPORATE SOCIAL RESPONSIBILITY (CSR)

The company strongly believes that sustainable community development is essential for harmony between the community and the industry. It endeavours to make a positive contribution to the underprivileged communities by supporting a wide range of socio-economic, educational and health initiatives. Also, it is committed to integrate its business values and operations to meet the expectations of all its stakeholders.

In this regard, the Company has in its Board Meeting dated September 1, 2014, adopted the Corporate Social Responsibility (CSR) Policy which encompasses the Company's philosophy for delineating its responsibility as a corporate citizen and lays down the guidelines and mechanism for undertaking socially useful programmes for welfare & sustainable development of the community at large. The "CSR Policy" as adopted by the company is as per the Companies (Corporate Social Responsibility Policy) Rules, 2014 initiated by the Central Government under the relevant provisions of Section 135 of the Companies Act, 2013 and Schedule VII of the said Act.

The CSR initiative of the company for FY 2013-14 amounted to about ₹ 1.60 Crore which has been spent on various socio-economic upliftment activities which includes establishment of The Indian Institute of Information Technology (IIIT), Kota, Rajasthan for dissemination of knowledge in backward areas of Rajasthan, contribution to Western India Regional Council of The Institute of Chartered Accountants of India, Indian Institute of Technology, Roorkee, etc.

14. AUDITORS

M/s. S. K. Patodia & Associates, Chartered Accountants, retire as Auditors of the Company at the conclusion of the ensuing Annual General Meeting and have confirmed their eligibility and willingness to accept the office of the Auditors, if re-appointed. The company has received a certificate from them to the effect that their appointment, if made, would be within the prescribed limits under Section 139(1) of the Companies Act, 2013.

15. PARTICULARS OF EMPLOYEES

The information required under Section 217(2A) of the Companies Act, 1956 read with Companies (Particulars of Employees) Rules, 1975, as amended are given in annexure appended hereto and forms part of this report. In terms of Section 219(1)(iv) of the Act, the Report and Accounts are being sent to the shareholders excluding the aforesaid annexure. Any shareholder interested in obtaining a copy of the said annexure may write to the Company Secretary at the Registered Office of the Company.

16. ACKNOWLEDGEMENT AND APPRECIATION

The Directors take this opportunity to thank Company's customers, shareholders, suppliers, bankers, Central and State Government for their consistent support to the Company. The Board also wishes to place on record their appreciation for the hard work, dedication and commitment of the employees at all levels. The enthusiasm and unstinting efforts of the employees have enabled the Company to grow in the competitive environment. The Board looks forward to their continued support and understanding in the years to come.

On behalf of the Board of Directors

Corporate Governance Report 2013-14

CORPORATE GOVERNANCE

Vakrangee's philosophy on Corporate Governance is founded upon a rich legacy of fair, ethical and transparent governance practices. Corporate Governance is that crucial muscle which encourages and moves a viable and accessible financial reporting structure and which enables a transparent system. Through the Governance mechanism in the Company, the Board along with its Committees undertake its fiduciary responsibilities to all its stakeholders by ensuring transparency, fairplay and independence in its decision making.

Corporate Governance signifies acceptance by management of the inalienable rights of shareholders as the true owners of the organization and of their own role as trustees on behalf of the shareholders. Strong corporate governance is indispensable to resilient and vibrant capital markets and is an important instrument of investor protection.

At Vakrangee, our aspirations have always been of protecting, strengthening and aligning together the interest of all the stakeholders and to satisfy that, we strive hard to implement and continue to follow our core values which are "Belief in people, Entrepreneurship, Customer orientation and pursuit of excellence". Your Company endeavor to put in the right pedestal blocks for future growth and ensuring that we achieve our ambitions in a prudent and sustainable manner with strict adherence to best Corporate Governance practices.

Corporate Governance is a set of systems and practices to ensure that the affairs of the company are being managed in a way which ensures accountability, transparency, and fairness in all its transactions in the widest sense and meet its stakeholder's aspirations and societal expectations.

At Vakrangee, we are committed to meeting the aspirations of all our stakeholders. This is demonstrated in shareholder returns, our credit ratings, governance processes and an entrepreneurial and performance focused work environment.

The Board of Directors manages the affairs of the company in the best interest of the shareholders, providing necessary guidance and strategic vision. The Board is also responsible to ensure that the Company's management and employees operate with the highest degree of ethical standards.

Over the years, governance processes and systems have been strengthened and institutionalised at Vakrangee. Towards implementation and continuation of sound code of corporate governance practices, 5 Committees are operating for specific purposes: viz. Audit Committee, Remuneration and Compensation Committee, Corporate Governance Committee, Shareholders'/Investors' Grievance Committee and Resource Committee

Your Company is committed to maintain the highest standards of Corporate Governance. Your directors adhere to the stipulations set out in the listing agreements with the Stock Exchanges. A report on Corporate Governance as stipulated under clause 49 of the listing agreements forms part of Annual Report.

Your Board of Directors present the Corporate Governance Report for the year 2013-14 based on the disclosure requirements under Clause 49 of the Listing Agreement existing as on March 31, 2014.

Auditors' Certificate on Corporate Governance

To the members of **Vakrangee Limited,**

We have examined the Compliance of the conditions of Corporate Governance procedures implemented by Vakrangee Limited, for the year ended March 31, 2014, as stipulated in clause 49 of the Listing Agreement of the said Company with the stock exchanges in India.

The compliance of the conditions of Corporate Governance is the responsibility of the Company's management. Our examination was carried out in accordance with the Guidance Note on Certification of Corporate Governance, issued by the Institute of Chartered Accountants of India, and was limited to review of the procedures and implementation thereof, adopted by the company for ensuring compliance with the conditions of Corporate Governance. It is neither an audit nor an expression of opinion of the financial statements of the company.

In our opinion and to the best of our information and according to the explanation given to us, and the representations made by the Directors and management, we certify that the company has complied with the conditions of Corporate Governance as stipulated in clause 49 of the Listing Agreement.

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

CEO / CFO Certificate

To the Board of Directors of Vakrangee Limited

Dear Sirs,

Sub: CEO / CFO Certificate

(Issued in accordance with provisions of Clause 49 of the Listing Agreement)

We have reviewed the financial statements, read with cash flow statement of Vakrangee Limited for the year ended March 31, 2014 and that to the best of our knowledge and belief, we state that;

- (a) (i) these statements do not contain any materially untrue statement or omit any material fact or contain statements that might be misleading;
- (ii) These statements together present a true and fair view of the company's affairs and are in compliance with current accounting standards, applicable laws and regulations.
- (b) There are, to the best of our knowledge and belief, no transactions entered into by the company during the year which are fraudulent, illegal or in violation of the company's code of conduct.
- (c) We accept responsibility for establishing and maintaining internal controls for financial reporting and that we have evaluated the effectiveness of internal control systems of the company pertaining to financial reporting and we have disclosed to the auditors and the Audit committee, deficiencies in the design or operation of such internal controls, if any, and steps taken or proposed to be taken for rectifying these deficiencies.
- (d) We have indicated to the auditors and the Audit committee-
 - (i) significant changes in internal control over financial reporting during the year;
 - (ii) significant changes in accounting policies during the year and that the same have been disclosed in the notes to the financial statements; and
 - (iii) Instances of significant fraud of which we have become aware and the involvement therein, if any, of the management or an employee having a significant role in the company's internal control system over financial reporting.

Yours sincerely,

Dinesh Nandwana

Independent Auditor's Report

To the Members of Vakrangee Limited

Report on the Financial Statements

1. We have audited the accompanying financial statements of Vakrangee Limited (the Company), which comprise the Balance Sheet as at March 31, 2014, and the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information, which we have signed under reference to this report.

Management's Responsibility for the Financial Statements

2. The Company's Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 of India (the "Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
4. An audit involves performing procedures to obtain audit evidence, about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by Management, as well as evaluating the overall presentation of the financial statements.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

6. In our opinion, and to the best of our information and according to the explanations given to us, the accompanying

financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- (a) In the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2014;
- (b) In the case of the Statement of Profit and Loss, of the profit for the year ended on that date; and
- (c) In the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

7. As required by the Companies (Auditor's Report) Order, 2003, as amended by the Companies (Auditor's Report) (Amendment) Order, 2004, issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Act (hereinafter referred to as the "Order"), and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.

8. As required by section 227(3) of the Act, we report that:

- (a) We have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purpose of our audit;
- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
- (c) The Balance Sheet, Statement of Profit and Loss and Cash Flow Statement dealt with by this Report are in agreement with the books of account;
- (d) In our opinion, the Balance Sheet, Statement of Profit and Loss and Cash Flow Statement dealt with by this report comply with the Accounting Standards referred to in sub-section (3C) of section 211 of the Act;
- (e) On the basis of written representations received from the directors as on March 31, 2014, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2014, from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Act.

Annexure to Auditor's Report

Annexure referred to in Paragraph 7 of the Auditors Report to the members of **Vakrangee Limited** for the year ended March 31, 2014.

As required by the Companies (Auditors Report) Order, 2003 and amendments thereto and according to the information and explanations given to us during the course of the audit and on the basis of such checks of the books and records as were considered appropriate we report that:

- (i) a) The Company has maintained proper records showing full particulars, including quantitative details and situations of fixed assets.
- b) All the assets have been physically verified by the management in accordance with a phased programme of verification, which in our opinion is reasonable, considering the size of the company and the nature of business. The frequency of verification is reasonable and no material discrepancies have been noticed on such physical verification.
- c) During the year, there is no substantial disposal of Fixed Assets.
- (ii) a) The inventories have been physically verified by the management during the year at reasonable intervals.
- b) The procedures of physical verification of the inventories followed by the management are reasonable and adequate in relation to the size of the company and the nature of its business.
- c) The Company has maintained proper records of inventories. The discrepancies noticed on physical verification of inventories as compared to book records were not material.
- (iii) a) The Company has granted unsecured loans to two parties which are subsidiary companies covered in the register maintained under Section 301 of the Companies Act, 1956 on call basis. The maximum amount outstanding during the year was ₹ 2,665.67 Lacs and the year-end balance was ₹ 2,433.26 Lacs.
- b) Interest is charged on all the said loans, other terms and conditions on which the loans have been granted are prima facie, not prejudicial to the interest of the Company.
- c) According to information provided to us, the repayment of said loans is regular.
- d) According to the information provided to us, the Company has taken reasonable steps to recover the said loans.
- e) The company has taken unsecured loans from Vakrangee Capital Pvt. Ltd. covered in the register maintained under Section 301 of the Companies Act, 1956 on call basis. The maximum amount outstanding during the year was ₹ 120.00 Lacs and the year-end balance was ₹ Nil.
- f) The said loans are interest-free loans. Other terms and conditions on which the loans have been taken are prima facie, not prejudicial to the interest of the Company.
- g) According to information provided to us, there is no default in repayment of said loans.
- (iv) In our opinion and according to the information and explanation given to us, there is adequate internal control system commensurate with the size of the company and the nature of its business with regard to purchase of inventory, fixed assets and for the sale of goods and services. During the course of our audit, we have not observed any continuing failure to correct major weaknesses in internal control systems.
- (v) a) Based on the audit procedures performed by us, we are of the opinion that particulars of contracts or arrangements referred to in Section 301 of the Act have been entered in the register required to be maintained in that section.
- b) The transactions made in pursuance of such contracts or arrangements have been made at prices which are reasonable having regard to the prevailing market prices at the relevant time.
- (vi) The company has not accepted any public deposit.
- (vii) The Company has an adequate internal audit system commensurate with the size and nature of its business.
- (viii) The Central Government has not prescribed for maintenance of cost records under Section 209 (1) (d) of the Companies Act, 1956 for the Company.
- (ix) a) According to the records of the Company, the undisputed statutory dues including Income

Annexure to Auditor's Report

Tax, Sales Tax, Wealth Tax, Service Tax, Customs Duty and Excise Duty, Cess have regularly been deposited with the appropriate authorities. There are no significant undisputed amount payable in respect of such statutory dues which have remained outstanding as at March 31, 2014 for a period more than six months from the date they became payable.

- b) According to the records of the company and information and explanations given to us, there are no dues of income tax, sales tax, wealth tax, service tax, custom duty, excise duty and cess which have not been deposited on account of any dispute.
- (x) The company has no accumulated losses at the end of the financial year and it has not incurred cash losses during the financial year and in the immediately preceding financial year.
- (xi) The Company has not defaulted in repayment of its dues to banks and financial institutions.
- (xii) The Company has not granted any loans or advances on the basis of security by way of pledge of shares, debentures or other securities.
- (xiii) The provisions of any Special Statute applicable to Chit Fund, Nidhi or Mutual Benefit Fund/ Societies are not applicable to the company.
- (xiv) In respect of dealing in shares, securities and other investments, in our opinion and according to the information and explanations given to us, proper records have been maintained of the transactions and contracts and timely entries have been made therein. The shares, securities and other investments have been held by the company in its own name.
- (xv) The company has not given any guarantee for loans taken by others from banks and financial institutions.
- (xvi) The Company has taken Term Loans during the year and has applied the loans for the purposes for which they were obtained.
- (xvii) On an overall examination of the balance sheet of the Company, we report that no funds raised on short-term basis have been used for long term investments.
- (xviii) The Company has not made preferential allotment of shares to parties and companies covered in the register maintained under Section 301 of the Act.
- (xix) The Company has not issued any debentures during the year.
- (xx) The Company has not raised any money by way of public issue during the year.
- (xxi) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, we have not come across any instance of material fraud on or by the Company, noticed or reported during the year.

Add: Issue of Shares during the year		
Bonus Issue	-	25,02,39,790
Conversion of ESOPs	9,82,920	20,19,740
Conversion of Share Warrants	-	-
	9,82,920	25,22,59,530
No. of shares at the end of the year	50,34,82,240	50,24,99,320

(d) **Aggregate details for five immediately previous reporting periods for each class of shares**

Particulars	As at March 31, 2014	As at March 31, 2013
- No. of shares allotted as fully paid up pursuant to contracts without payment being received in cash	-	-
- No. of shares allotted as fully paid by way of Bonus Shares	25,02,39,790	25,02,39,790
- No. of shares bought back	-	-

During the year, the Company has issued 9,82,920 equity shares of ₹ 1/- each on exercise of options granted under the employee stock option plan (ESOP) wherein part consideration was received in the form of employee services.

Hence, the company has issued total 61,58,940 shares during the period of five years immediately preceding the reporting date on exercise of options granted under the ESOP scheme.

Notes to Financial Statements as on March 31, 2014

(e) **Details of Promoters' holding more than 5% shares in the company**

No. of Shares held by	As at March 31, 2014		As at March 31, 2013	
	Nos.	%	Nos.	%
Vakrangee Holdings Private Limited	12,53,75,194	24.90	11,54,35,194	22.97
Dinesh Nandwana	2,97,67,100	5.91	2,97,66,000	5.92
Vakrangee Capital Private Limited	3,99,36,220	7.93	2,68,89,120	5.35

(f) **Detailed note on shares reserved to be issued under options and contracts (ESOPs or Loans) / commitment for the sale of shares (without payment being received in cash) divestments including the terms and conditions.**

The Company had formulated Employees Stock Option Scheme, 2008 (ESOP Scheme) which was approved by the members of the Company at their meeting held on September 23, 2008, as modified on January 10, 2011 & on June 1, 2012.

Therefore, all the Grants issued upto previous year, i.e. Grant 1 to Grant 6, & the prices at which the options (after effecting modification, if any) to be exercised as follows:

Grant No. & Date of Grant	Option Granted	
	No. of options (Equity shares of Face Value ₹ 1/- each)	Exercise Price (₹)
Grant 1 on July 31, 2009	54,14,000	3.10
Grant 2 on December 30, 2009	4,12,000	3.39
Grant 3 on May 18, 2010	31,24,000	7.33
Grant 4 on November 24, 2010	17,35,000	7.50
Grant 5 on August 12, 2011	12,97,000	7.50
Grant 6A on July 20, 2012	11,90,000	20.00
Grant 6B on July 20, 2012	20,00,000	10.00

The Company has made another change in the ESOP Scheme with respect to the vesting of the options (only those forming part of the fresh Grants issued after June 1, 2012) over the period as follows:

Period of Vesting from the date of grant	Option Granted	
	Grant 1 to 5	Grant 6 onwards
At the end of twelve months	33%	-
At the end of twenty four months	33%	25%
At the end of thirty six months	34%	25%
At the end of forty eight months	-	25%
At the end of sixty months	-	25%

Employees covered under Stock Option Plans are granted an option to purchase shares of the company at the respective exercise prices, subject to requirements of vesting conditions. These options generally vest over a period of four years from the date of grant for Grants 1 to 5 and six years from the date of grant for Grant 6 onwards. Upon vesting, the employees can acquire one equity share for every option.

The stock compensation cost is computed under the intrinsic value method and amortized on a straight line basis over the total vesting period of four years & six years accordingly. For the year ended March 31, 2014, the company has recorded stock compensation expense of ₹ 227.70 Lacs (net) (Previous year ₹ 280.38 Lacs). During the year, the Company has reversed the deferred employee compensation expenses amounting ₹ 79.32 Lacs (Previous Year ₹ Nil) towards 10,93,000 options lapsed out of the Grant 4.

Notes to Financial Statements

as on March 31, 2014

The Remuneration & Compensation committee of the Board evaluates the performance and other criteria of employees and approves the grant of options. These options vest with employees over a specified period subject to fulfillment of certain conditions. Upon vesting, employees are eligible to apply and secure allotment of Company's shares at a price determined on the date of grant of options.

The activity in the Scheme 2008 during the year ended March 2014 is set out as below :

Particulars	As at March 31, 2014	As at March 31, 2013
The Scheme 2008		
Options outstanding, beginning of the period	99,95,980	4,41,286
Add : Additional no. of options arising due to change in ESOP Scheme as above (Grant 1 to 5)	-	83,84,434
Add : Granted	-	31,90,000
Less: Exercised	9,82,920	20,19,740
Less : Lapsed	10,93,000	-
Options outstanding, end of the period	79,20,060	99,95,980

The options once granted to an eligible employee gets lapsed with the resignation / termination of the employment with the Company. However, the unvested / unexercised portion of the ESOP entitlement to that employee remain part of the respective grant out of which it was issued & they can be granted to any other eligible employee as decided by the Remuneration & Compensation Committee.

Particulars of payments received during the year towards ESOP Scheme 2008 :

Particular of Grant	Amount received during the year (₹)	No. of shares allotted during the year	Consideration amount towards shares allotted (₹)
Grant 1	-	-	-
Grant 2	-	-	-
Grant 3	41.46	566,000	41.46
Grant 4	31.27	416,920	31.27
Grant 5	-	-	-
	72.73	9,82,920	72.73

Note : The Remuneration & Compensation Committee has been authorised to make amendments in the ESOP Scheme - 2008, with regard to the number of shares for every option granted & the price to be revised, to give effect of stock split & bonus issue announced by way of postal ballot during the year.

(g) Detailed terms of any securities convertible into shares, e.g. in the case of convertible warrants, debentures, bonds etc.

The Company has issued 250.00 Lacs fully convertible warrants to M/s. Vakrangee Capital Private Limited at value of ₹ 100/- per warrant. The warrants issued are convertible into equal no. of equity shares having face value of ₹ 1/- with premium of ₹ 99/- per share. An amount equivalent to 40.56% of the total consideration i.e. ₹ 101.40 Cr. was received before the issuance of the warrants. Balance amount towards the warrant application money shall be received before the conversion of the warrants. The warrants shall be convertible any time from the date of allotment but before the expiry of 18 months from the date of allotment.

(b) Terms of repayment of term loans and other loans.

i) Term Loan from Banks :

- The Company has entered into a Common Loan Agreement amounting to ₹ 225.00 Crores sanctioned by nationalised and private banks.

The initial interest rate in respect of all the lenders shall be 13% p.a. payable with monthly rests irrespective of the individual interest rates mentioned in respective lenders' sanction letters, subject to further change in Base Rate till date of documentation. The highest rate of interest of any lender shall be applicable and payable by the Company to all the lenders. The interest spread reset shall be done every 2 years from the date of first disbursement. The loan is to be repaid in 14 unequal quarterly installments commencing after moratorium period of six months from the date of first disbursement / LC opening. First installment shall be due at the end of six months, thereby total tenor of the loan to be 45 months.

- The Company has taken a fresh term loan of ₹ 25.00 Crores during the year. Present rate of interest is 12.50% p.a. The loan is to be repaid in 16 quarterly installments of ₹ 1.56 Crore starting from availability-cum-moratorium period of 15 months from the date of first disbursement. First installment shall be due in the last quarter of the financial year 2014-2015, thereby total tenor of the loan will be 63 months.

Notes to Financial Statements

as on March 31, 2014

3. The Company has taken a term loan in the form of External Commercial Borrowings (ECBs) of USD 10 Million during the previous year. The borrowings are made at an interest rate equal to the sum of LIBOR and the Margin as specified in the Term Loan Facility Agreement. The payment of interest to be made quarterly. Present rate of interest is 3.561% p.a. The loan is to be repaid in 12 quarterly installments starting from June 30, 2014, with first 11 installments in equal amounts & the amount of the last i.e. twelfth installment being the balance of principal pending for repayment, thereby total tenor of the loan to be five years.

The Company has entered into a Cross Currency & Interest Rate Swap facility for hedging of the ECB repayments (principal and interest). By way of this swap facility, the rate of interest has been fixed at 9.62% p.a. for complete tenor of the term loan. The spot reference rate for repayment of the said loan has been fixed at ₹ 56.08 for 1 USD.

The bank has sanctioned Loan Equivalent Value (LEV) of ₹ 6.493 Cr under currency swap facility. Negative Mark-to-Market threshold limit for margin call has been fixed at ₹ 5.00 Cr. In case, the net payables exceed the exposure, the Bank has the right to call for additional deposit margin forthwith to maintain the exposure within the threshold limit. The Company shall deposit cash collateral as per Bank's instructions, if negative MTM exceeds ₹ 5.00 Cr.

- ii) Term Loan from NBFC, carries an interest rate equal to the sum of Reference Benchmark rate and the Interest spread as specified in the Loan agreement. Present rate of interest is 13% w.e.f. 7th November 2013. The interest payment to be made monthly. Principal repayment shall be in monthly equal installments for 36 months from the date of drawdown.

Obligation under finance lease are repayable in 36 monthly equal installments. These obligations carry an interest rate of 14.00% p.a.

(c) Nature of security of each type of secured loans.

- i) Term Loans from Banks (existing) :

(b) Details of Capital Work-in-Progress

Capital Work-in-Progress represents cost incurred towards advance for purchase of ATM Machine for White Label ATM (WLA) project.

(c) Detailed note on Fixed Assets taken on Lease

The Company has taken certain assets on finance lease during the previous year. There are certain computer equipment assets taken on operating lease under non-cancellable agreements in previous years. The assets taken on finance lease have been classified as leased assets under the project assets above. The finance lease is for the period of three years from the date of its commencement. Hence the depreciation on these assets will be amortised over a period of three years on straight line basis. For details on operating lease, please refer Note No. 39.

(d) During the year, the Company has acquired fixed assets worth ₹ 196.57 Crores (Previous Year ₹ 440 Crores) towards various e-governance projects including UID Enrolment project, Financial Inclusion, CSC. The management of the company envisage that the useful life of these assets assigned to any project, present or future, will be 3 to 4 years from the date of its put to use and accordingly has accelerated the depreciation at higher rate.

Note 40 - Amounts due to Micro, Small and Medium Enterprises:

The Company has not received any intimation from the suppliers under the The Micro, Small & Medium Enterprises Development Act 2006 and therefore disclosures, if any, relating to amounts unpaid as at the year end together with interest paid/payable as required under the said Act have not been given.

Note 41 - Previous year figures

The figures of the previous year have been re-arranged, re-grouped and re-classified wherever necessary.

Independent Auditor's Report

To the Members of **Vakrangee Limited**,

We have audited the attached Consolidated Balance Sheet of **Vakrangee Limited** (hereinafter referred as "the Company"), the holding company, and its subsidiaries (hereinafter collectively referred to as "the Group") as at **March 31, 2014**, the Consolidated Profit and Loss Account and the Consolidated Cash Flow Statement for the year ended on that date, annexed thereto. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

1 We conducted our audit in accordance with auditing standards generally accepted in India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are prepared, in all material respects, in accordance with an identified financial reporting framework and are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

2. We report that the consolidated financial statements have been prepared by the Company in accordance with the requirements of Accounting Standard 21, "Consolidated Financial Statements" notified pursuant to the Companies (Accounting Standards) Rules, 2006 and on the basis of the separate audited financial statements of the Company and its subsidiaries included in the Consolidated Financial Statements.

3. We did not audit the financial statements of two subsidiaries, which have been audited by other auditors whose reports have been furnished to us and our opinion is based solely on those reports. The financial statements of these subsidiaries reflect the group's share of total assets of ₹ 5,737.73 Lacs as at March 31, 2014 and total revenues of ₹ Nil Lacs for the year ended March 31, 2014.

4. In our opinion and to the best of our information and according to the explanations given to us and on the consideration of the separate audit reports on individual financial statements of the Company and its subsidiaries, we are of the opinion that the consolidated financial statements give a true and fair view :

- i) In the case of the Consolidated Balance Sheet, of the state of affairs of the Group as at March 31, 2014,
- ii) In the case of the Consolidated Profit and Loss Account, of the profit for the year ended on that date,
- iii) In the case of Consolidated Cash Flow Statement, of the Cash Flows of the Group for the year ended on that date.

(b) Details of Capital Work-in-Progress

Capital Work-in-Progress (Opening) represents cost incurred towards purchase of Land & computer software (pending installation), which has been excluded from consolidation in the financial statements due to disposal of the investments in the concerned subsidiary company.

Capital Work-in-Progress (Closing) represents cost incurred towards advance for purchase of ATM Machine for White Label ATM (WLA) project.

(c) Detailed note on Fixed Assets taken on Lease

The Company has taken certain assets on finance lease during the previous year. There are certain computer equipment assets taken on operating lease under non-cancellable agreements in previous years. The assets taken on finance lease have been classified as leased assets under the project assets above. The finance lease is for the period of three years from the date of its commencement. Hence the depreciation on these assets will be amortised over a period of three years on straight line basis. For details on operating lease, please refer Note No. 35.

(d) During the year, the Company has acquired fixed assets worth ₹ 196.57 Crores (Previous Year ₹ 440 Crores) towards various e-governance projects including UID Enrolment project, Financial Inclusion, CSC. The management of the company envisage that the useful life of these assets assigned to any project, present or future, will be 3 to 4 years from the date of its put to use and accordingly has accelerated the depreciation at higher rate.
